To all wastewater agencies and interested individuals

WASTEWATER USER CHARGE SURVEY REPORT FOR FISCAL YEAR 2007-08

This is the FY 2007-08 edition of the User Charge Summary prepared by the Division of Financial Assistance. 726 public agencies (cities, sanitary districts, public utility districts, community service districts, water districts, county special districts, etc.) provide some form of wastewater service to 920 service areas. The information included in this report was obtained from a questionnaire (see page No. 106) mailed to each of the above referenced public agencies that own and/or operate wastewater facilities. Information was received from 606 public agencies for 785 of the service areas. In order to identify the 135 service areas for which data was not received this year and for which the data may be out of date, a two-digit number appears after their name representing the last year information was received (see Legend on Page 107).

The data are presented in a manner similar to previous reports to facilitate comparisons with prior year reports. Care should be exercised in using this report since data have been listed as reported by the agencies and little time was available to verify the reported data. User fees reported for agencies that only provide collection service may not include any charge for treatment and disposal. I added the regional treatment authority's fee when I could determine that the reported fees did not include the regional charges. Some reported user fees may represent a bi-monthly fee and not a monthly fee as stated. Some user fees include charges for repayment of debt, future capital reserves, operating reserves, etc. while others only may only fund operation, maintenance and replacement (O.M. & R.) expenses. We also identified agencies that have a variable residential user charge based on metered water consumption in lieu of a flat rate. Some agencies may utilize assessments or other sources of revenue for debt service, which should be considered when determining the total cost of providing wastewater service.

Summary values (i.e. Number, Lowest, Highest, Average and Median) were calculated from data received for fiscal years 2006-07 and 2007-08 only. It was assumed that the majority of the data received for last year's survey is still valid this year.

If you have any questions about this report, please contact Mr. Christopher Stevens at (916) 341-5698 for assistance.

Sincerely,

Ronald R. Blair
