RICHARD C. BRENNAN, CLERK

G. SWICKARD

By..... DEPUTY CLERK

Attorneys for the
State Water Resources Control Board

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA

IN AND FOR THE COUNTY OF SHASTA

In the Matter of the Determination of
the Rights of the Various Claimants to
the Water of Cow Creek Stream System,
Excepting Clover Creek, Oak Run Creek,
and North Cow Creek, in Shasta County,
California

No. 38577

DECREE

The above-entitled cause having come on regularly
for hearing, trial, and determination on the 13th day of
December, 1968, before this Court sitting without a jury; all
parties in interest in said proceeding having been duly and
regularly notified of said hearing, trial, and determination;
the State Water Resources Control Board (hereinafter referred
to as "Board") having filed with the Clerk of this Court a

1 certified copy of its Order of Determination together
2 with the original evidence filed with or taken before the
3 Board and certified by it; exceptions to the Order of
4 Determination having been filed and heard by Thomas and
5 Morag Fraser, Pacific Gas and Electric Company, Edward
6 M. Beazley, Howard E. Graham, Richard M. Murphy, Jr.,
7 Shasta Forests Company, Elmer Hufford, and Jesse D. Hufford,
8 Jr.; the Board having filed its Supplemental Order of Deter-
9 mination and moved the Court to amend and affirm the Order
10 of Determination as amended; the matter having been sub-
11 mitted for decision and the Court being fully advised in
12 the premises grants the motion of the Board to amend the
13 Order of Determination, affirms said Order of Determination
14 as amended, and said Supplemental Order of Determination, and
15 renders this its decree determining the rights of all parties
16 involved in this proceeding as follows, to wit:

17 IT IS ORDERED, ADJUDGED, AND DECREED that the
18 several rights of all existing claimants in and to the use
19 of water of the Cow Creek Stream System, excepting Clover
20 Creek, Oak Run Creek, and North Cow Creek, in Shasta County,
21 California, are as hereinafter set forth:

22
23 Definitions

24 1. Water Code

25 The term "Water Code" means the State of California
26 Water Code.
27
28

1
2
3
4
5

21
22
23
24
25
26
27
28
29
30
31

2. Stream System

The term "stream system" means the Cow Creek stream system including Cow Creek, Old Cow Creek and South Cow Creek and tributaries with the exception of Clover Creek, Oak Run Creek, and North Cow Creek, from their headwaters to the confluence of Cow Creek with the Sacramento River in Shasta County, California.

3. Claimant

The term "claimant" means a party who has filed a proof of claim of water right in and to the use of water of Cow Creek stream system, or who having failed or refused to properly file such a proof of claim has had his right determined pursuant to provisions of Water Code Section 2604. The term includes any successor in interest to such party.

4. Direct Application

The term "directly apply to beneficial use" means the direct conveyance and application of water diverted to beneficial use without intermediate storage, except such reasonable regulatory storage as may be practiced for the purpose of creating a convenient head for irrigation or other beneficial use allowed herein.

5. Natural Flow

The term "natural flow" means such flow as will occur at any point in a stream from the runoff of the

watershed which it drains, from springs and seepage which naturally contribute to the stream, and from waste and return flow from dams, conduits, and irrigated lands, as distinguished from water released directly from storage for rediversion and use, or water imported from another watershed which is released directly to the natural channel for conveyance to place of beneficial use.

6. State Water Resources Control Board Map

The State Water Resources Control Board map, hereinafter referred to as SWRCB map, is the map prepared by the Board from surveys made in 1964 and 1966, as revised and amended in 1968 and 1969, which map is entitled "Cow Creek Stream System, Excepting Clover Creek, Oak Run Creek, and North Cow Creek, showing Diversions and Irrigated Lands, Shasta County, California, dated 1964" and is on file in this proceeding. Said SWRCB map comprising five sheets, plus an index sheet, is by reference incorporated herein.

General Entitlement

7. Diversion and Use of Water

The several claimants in the proceeding are entitled to the use of water of Cow Creek stream system on their lands described under their respective names in Schedule 1, and shown on the SWRCB map, from points of diversion described in Schedule 2, during the periods of time specified in Paragraph 16, and in the amounts allotted from the various sources under the priorities and for the uses set forth after their respective names in Schedules 3, 4, 5, 6, 7, and 8 and Paragraph 21 and as said uses are defined in Paragraphs 17 through 20. The points of measurement of the amounts of water allotted shall be at the points of diversion from the stream system unless otherwise specified.

8. Reasonable Use

Nothing herein contained shall, or shall be construed to, allocate to any claimant a right to divert from Cow Creek stream system, at any time, a quantity of water in excess of an amount reasonably necessary for his beneficial use, nor to permit him to exercise his right in such a manner as to unreasonably impair quality of the natural flow.

9. Stream Groups

The rights to waters of the Cow Creek stream system are divided into four separate groups designated as follows:

- Independent Tributary Group
- Old Cow Creek Group
- South Cow Creek Group
- Lower Cow Creek Group

All rights in the Independent Tributary Group are superior in priority to and independent of all rights in the other three remaining groups, to wit, Old Cow Creek Group, South Cow Creek Group and Lower Cow Creek Group. All rights in each of the said remaining three groups are independent of rights in each of the other two of said remaining groups and all rights in Old Cow Creek Group and South Cow Creek Group are superior in priority to all rights in Lower Cow Creek Group excepting as provided in Paragraph 13.

10. Classes in Independent Tributary Group

Rights in the Independent Tributary Group consist of the 10 Special Class rights which are entitled to divert the entire flow of the sources named at the points of diversion specified in Schedule 3, and rights in the Independent Tributaries which are shown in Schedule 7, consisting of 42 rights in First Priority Class, 12 rights in

1 Second Priority Class, 5 rights in Third Priority Class and
2 147 rights in Fourth Priority Class. Rights contained in
3 said Schedule 7 are interrelated insofar as they attach to
4 a common source designated therein. All rights in Schedule 7
5 are inferior in priority to all Special Class rights in
6 Schedule 3 but are superior in priority to all other rights
7 on the Cow Creek Stream System except that rights in said
8 Schedule 7 attaching to Glendenning and Atkins Creeks and
9 their tributaries, except Spring Creek, are correlative with
10 rights of the same Priority Class in Schedules 4 and 5
11 attaching to these same sources.

12
13 11. Classes in Old Cow Creek Group

14 Old Cow Creek Group consists of 48 rights in First
15 Priority Class, 23 rights in Second Priority Class, 2 rights
16 in Third Priority Class, 24 rights in Fourth Priority Class
17 contained in Schedule 4, and 2 Surplus Class rights (Couser
18 and Boksa) contained in Schedule 8. All rights in First,
19 Second and Third Priority classes in said Schedule 4 are
20 superior to and independent of all rights in the Lower Cow
21 Creek Group as shown in Schedule 6. All rights to waters of
22 Glendenning Creek and Tributaries in Schedule 4 in First,
23 Second and Third Priority Classes are superior to all other
24 rights in Old Cow Creek Group.

1 individual rights, a class of rights each one of which is
2 equal in priority and correlative in right with all other
3 rights of the same class appearing within the same schedule,
4 so that in the event of a supply of water sufficient to sup-
5 ply only part of the entitlement of any specific priority
6 class, said available supply shall be prorated in accordance
7 with allotments in that priority class. No priority class
8 is entitled to the use of any water until all rights of all
9 priority classes with lower numbers have been fully satis-
10 fied. Thus, within the same schedule, all rights of the
11 Second Priority Class are inferior in priority and sub-
12 ordinate to all rights of the First Priority Class, but are
13 superior in priority and entitled to full satisfaction ahead
14 of the Third Priority Class, except power rights which will
15 not impair the regimen and quantity of natural flow to which
16 correlative and superior class rights are entitled.
17 Claimants of irrigation rights for dormant riparian lands
18 are entitled to divert allotments in Fourth Priority Class
19 shown in Schedules 4 through 7, inclusive, to their places
20 of use shown in Schedule 1, through proposed points of
21 diversion specified in Schedule 2 or as these may be
22 provided by claimant in the future to adequately divert
23 water for irrigation of said lands without interference with
24 superior rights.

15. Surplus Class Rights

Surplus Class rights shown in Schedule 8 are inferior in priority to Third Priority Class and superior in priority to Fourth Priority Class rights and are listed in relative order of their individual priority in said Schedule 8.

16. Seasons of Use

Allotments for irrigation shall be for continuous use from about March 1 to about October 31 of each year. Allotments for domestic, stockwatering, industrial and power purposes shall be for continuous use throughout the year.

17. Domestic and Stockwatering Use

Domestic use is limited to water applied exclusively for household purposes, watering of domestic animals and irrigation of up to one-half acre of yard, garden and/or family orchard. Use for stockwatering is limited to water required by commercial livestock. All allotments in First Priority Class in Schedules 4 through 7 are solely for domestic and stockwatering purposes.

18. Irrigation Use

Irrigation use is limited to the application of water for the purpose of meeting moisture requirements of growing crops.

1 19. Industrial Use

2 Industrial use is limited to the application of
3 water in the culture and harvesting of timber including
4 incidental domestic use, the building and maintenance of
5 roads, sprinkling to allay dust, fire protection, operation
6 of portable or semi-portable sawmills including operation
7 and maintenance of appurtenant logging ponds, chippers and
8 debarkers and the initial irrigation of timber plantings
9 including Christmas tree stock. Use for stockwatering and
10 domestic purposes by livestock and recreational users of
11 timber lands in conjunction with, but not in excess of,
12 the allotments contained herein for timber culture is
13 deemed to be within this defined use.

14 20. Power Use

15 Power use is limited to the hydro-dynamic appli-
16 cations required for the development of electrical energy.
17

18 21. Combined Uses

19 Claimants diverting water under allotments for
20 irrigation, industrial and/or power use are entitled to
21 use water for domestic and stockwatering purposes incidental
22 to the aforesaid major uses but are not entitled to divert
23 in addition thereto their First Priority allotments for
24 domestic and/or stockwatering use unless the supply available

under the inferior priority class allotment is insufficient to provide such incidental needs. In such event, the First Priority allotment is to be measured at the point of use; however, the aggregate of such allotment and the amount of carriage water required shall not exceed the maximum ditch rates for winter months as set forth below.

To provide water for conveyance losses and domestic and stockwatering purposes during the non-irrigation season from about November 1 to about March 1, all claimants with First Priority Class allotments are entitled to the amount of such First Priority Class allotments at their places of use during said winter months limited, in the aggregate, to the following maximum rates of diversion at the following specified points of diversion as described in Schedule 2:

	: Amount :	:	: Amount :	:	: Amount :
	Diversion:Cubic Feet:	:	Diversion:Cubic Feet:	:	Diversion:Cubic Feet:

11	22 or 23 0.1	:	45 0.5	:	69 0.25
12	24 0.2	:	47 1.0	:	72 0.25
13	28 4.0	:	48 0.7	:	73 3.0

22. Equivalent Flow to Provide Adequate Head

Although all quantities of water allotted to the several claimants for direct application to beneficial use in Schedules 3 through 8, inclusive, are severally expressed in terms of continuous flow, nevertheless, except as otherwise provided in this paragraph, nothing herein contained shall be construed as limiting or restricting the right of any such claimant to rotate in the use of water with other related rights in the same stream group or to divert for limited periods of time "heads" convenient for the specified purpose of use and thus apply water to his place of use at a greater rate than indicated by the quantity of continuous flow so allotted; provided that such practice of rotation or use of a convenient "head" shall not result in the use by any such claimant of a total quantity of water during any

1 thirty-day period in excess of the equivalent of claimants' continuous
2 flow allowance; and provided further that such practice of rotation or use
3 of convenient "heads" shall not cause an unreasonable interference in the
4 regimen and quantity of available natural flow as defined in Paragraph 5
5 to which others are entitled; provided, further, that Pacific Gas and
6 Electric Company and users of water through the following ditches are
7 prohibited from exercising the rotation provision of this paragraph: the
8 Grindlay-Williams, Diversion 6; the Brown-Grover Ditch, Diversion 28; the
9 Koehler Ditch, Diversion 29; the Parker Hufford Ditch, Diversion 31; the
10 Bassett Ditch, Diversion 36; and the German Ditch, Diversion 43. Subject
11 to the foregoing impairment and infringement limitations, claimants en-
12 titled to take water through diversion works described in Schedule 2,
13 including those entitled to generate hydro-electrical energy, who have,
14 for regulatory purposes, maintained a tank or reservoir as described in
15 Appendix A, titled Description of Diversion Systems, contained in the
16 State Water Rights Board Report on Water Supply and Use of Water dated
17 1965, are entitled to continue such regulation as is necessary in the
18 exercise of their rights granted herein.

19
20 Special Provisions

21 23. South Cow Creek Ditch Association

22 The individual shareholders in the South Cow Creek Ditch Associ-
23 ation own the German Ditch. The Association was originally known as the
24 South Cow Creek Irrigating Ditch Company, being formed on October 6, 1887,
25 with constitution and bylaws recorded in Book 4 of Miscellaneous Records
26

1 of Shasta County on page 263. Shareholders are entitled to divert and use
 2 waters of South Cow Creek in the amount and for the purposes set forth in
 3 Schedule 5 under Diversion 43 in proportion to their respective share
 4 ownerships in the said South Cow Creek Ditch Association as follows:

6	Shareholder	: Shares	: Cubic Feet per Second
7	Shasta Forests Company	25.0	7.37
8	Pacific Gas and Electric Company	4.9	1.44
9	George Reimer and Dorothy F. Reimer	4.1	1.21
10	Guy W. McTimmonds and Patricia L. McTimmonds	2.5	0.74
11	Jack E. Brady and Ruth I. Brady	2.5	0.74
12	C. E. Miller, Edward F. and Lucille M. Weller	4.0	1.18
13	M. L. Wiley	2.0	0.59
14	Frank B. Weir	0.5	0.15
15	Remi C. Knight	0.1	0.03
16	<u>Bickford Takeoff Shares</u>		
17	Robert H. Mix	0.2	0.06
18	Laine Gibson and Patricia Gibson	0.1	0.03
19	Russell M. Linhart and Mary I. Linhart	0.1	0.03
20	Mary L. Chellis	0.2	0.06
21	Donald E. Rynd and Shelley Rynd	0.2	0.06
22	Leslie Combs and Ellen Combs	0.1	0.03
23		<u>0.9</u>	<u>0.9</u>
24	Total	46.5	13.72

26 Non-shareholders Roger R. Cook and Ellen H. Turk are entitled to
 27 the use of German Ditch water from the allotment of Shasta Forests Company
 28

1 as provided in Agreement (M)M54 with said company to be diverted at
2 Diversion 66 for domestic and stockwatering use and irrigation of their
3 lands described in Schedule 1. Non-shareholder State of California,
4 Division of Forestry, is entitled to the use of German Ditch water through
5 the easterly branch of the sixth lateral from the allotment of Shasta
6 Forests Company as provided in its agreement with said Company for
7 domestic and industrial uses incidental to the operation of the Whitmore
8 State Forestry Station.

9 Pacific Gas and Electric Company by reason of its ownership of
10 an additional 10 (ten) shares in the South Cow Creek Ditch Association is
11 entitled to 2.00 cubic feet per second in Third Priority Class. Said 2.00
12 cubic feet per second shall not be diverted by the Company through the
13 German Ditch but shall be conveyed in the South Cow Creek Channel to
14 Diversion 64 and shall be considered available for diversion at said point
15 only after intervening rights of First and Second Priority Classes have
16 been fully satisfied. Said Company may divert its allotment for 4.9
17 shares in Second Priority Class through German Ditch, Diversion 43, in
18 an amount of 1.44 cubic feet per second for discharge into Mill Creek and
19 rediversion therefrom through Mill Creek Ditch, Diversion 71, along with
20 its allotment of 12.1 cubic feet per second in Third Priority Class from
21 Mill Creek for conveyance and release into South Cow Creek Channel for re-
22 diversion for power purposes at Diversion 64. In addition to the afore-
23 stated allotments, said Company is entitled to divert 45.9 cubic feet per
24 second in Third Priority Class from South Cow Creek through its South Cow
25 Creek Powerhouse Ditch, Diversion 64, for power purposes as set forth in
26 Schedule 5, and may divert up to 60.0 cubic feet per second from South Cow
27 Creek through said ditch under this allotment, provided that all other senior
28 and third priority rights are fully satisfied.

24. Brown - Grover Ditch

Leary B. Atkins, Charlie E. Peterson and Corinne J. Peterson, George C. Stevenson and Jeanette Stevenson, Lowell D. Brewer and Vietta M. Brewer, and Roxie R. Gilbert are entitled to divert 14.01 cubic feet per second from the natural flow of Old Cow Creek as set forth in Schedule 4 through Brown-Grover Ditch at a point designated on SWRCB map as Diversion 28 as described in Schedule 2, for domestic and stockwatering purposes and for irrigation of their respective lands described in Schedule 1. Each is entitled to take the following share of the flow in said ditch through his existing division box and lateral for said uses on his lands as follows:

Ranch	Share of Ditch Flow	Irrigated Acreage
Atkins	1/12	23.4
Peterson	1/12	60.7
Stevenson	2/12	128.0
Brewer	4/12	199.0
Gilbert	4/12	169.0
	<u>12/12</u>	<u>580.1</u>

provided drainage water from irrigation of the northern portion of the Atkins Ranch may be used to irrigate 4.5 acres of the Peterson Ranch included above and an additional 1.7 acres owned by Charles G. and Joy Ann Shaw in NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 13, T32N, R1W, MDB&M. Drainage water from the irrigation of Atkins lands in the SW $\frac{1}{4}$, Section 12, and Peterson lands in SE $\frac{1}{4}$, Section 11, shall accrue to the natural flow of Coal Gulch. James W. Schmitt and Geo. J. Dymesich are entitled to drainage water from the Brewer Ranch for domestic and irrigation use on 8.3 and 21.0 acres, respectively, situated on the south side of Whitmore Road.

25. Bassett Ditch

George J. Dymesich, H. Martin Carter and Helen L. Carter, and Crowe Hereford Ranch are entitled to divert 27.61 cubic feet per second from the natural flow of Old Cow Creek as set forth in Schedule 4 through Bassett Ditch at a point designated on the SWRCB map as Diversion 36 as described in Schedule 2 for domestic and stockwatering purposes and for irrigation of lands described in Schedule 1. Each is entitled to the following share of flow in said Ditch through his existing division box for said uses on his lands as follows:

Ranch	Share of Ditch Flow	Irrigated Acreage
Dymesich	2/20 ^a	22.4
Carter	6/20	50.0 30.8 229.6
Crowe	12/20	266.3 370.7 ^b
	<hr/>	<hr/>
	20/20	976.6

26. Parker - Hufford Ditch

Roderick Koehler, et al, George J. Dymesich, James L. Parker and Margaret E. Parker, and H. Martin Carter and Helen L. Carter are entitled to divert 11.12 cubic feet per second from the natural flow of Old Cow Creek as set forth in Schedule 4 through the Parker-Hufford Ditch at a

^a Steve Riggio is entitled to use sixteen percent (16%) of the Dymesich share of Bassett Ditch flow on 6.8 acres as described in Schedule 1.

^b Includes 10.0 acres in Section 5, T31N, R2W, as set forth in Schedule 1. Notwithstanding other rights to the water of Basin Hollow Creek, this 10.0 acres may be irrigated by the redivision through Diversion 38, Crowe Pump, of all Bassett Ditch return water reaching Basin Hollow Creek above said Diversion 38.

1 point designated on the SWRCB map as Diversion 31 as described in
 2 Schedule 2 for domestic and stockwatering purposes and for irrigation
 3 of lands described in Schedule 1. Each is entitled to take the
 4 following share of ditch flow through his existing division box for
 5 said uses on his lands as follows:

Ranch	Share of Ditch Flow	Irrigated Acreage
Koehler, et al	1/4 ^{/a}	5.5
Dymesich	1/4 ^{/b}	40.9
Parker	1/4	87.5
Carter	1/4	135.0 58.2
	4/4	339.5

14 provided that said total allotments be reduced to the extent that
 15 ditch flow between the Parker-Hufford diversion dam and the Whitmore
 16 Road Siphon is augmented by return flow from lands serviced by the
 17 Koehler Ditch, Diversion 29, and provided further that one-third of
 18 the flow in the ditch reaching the Parker division box, situated about
 19 1.25 miles below the siphon, be diverted into the Parker lateral and
 20 the remaining water in the ditch be divided equally between the Dymesich
 21 and Carter properties at their division box located about one mile below
 22 the Parker division box.

24 ^{/a} Paul Weaver is entitled to use 0.01 cubic foot per
 25 second of the Koehler share of Parker-Hufford Ditch
 flow on 0.1 acre as described in Schedule 1.

26 ^{/b} Steve Riggio is entitled to use sixteen percent (16%)
 27 of the Dymesich share of Parker-Hufford Ditch flow on
 12.3 acres as described in Schedule 1.

27. Abbott Ditch

Allan G. Abbott, Velma J. Jones, Administratrix of the Estate of Ellis T. Jones, Deceased, Jesse C. Jones, Virgil R. Farrell and W. H. Hunt Estate Company are entitled to divert 13.13 cubic feet per second from the natural flow of the east channel of South Cow Creek as set forth in Schedule 6 through Abbott Ditch, at a point designated on SWRCB map as Diversion 73, as described in Schedule 2, for domestic and stockwatering purposes and for irrigation of lands described in Schedule 1. Each is entitled to take the following share of flow in said Ditch through his existing works for said uses on his lands as follows:

Ranch	Share of Ditch Flow	Irrigation Acreage
Abbott	8/16	96.0
E. Jones	1/16	14.6
J. Jones	1/16	13.4
Farrell	4/16	79.8
Hunt	2/16	82.9 27.2
	<hr/>	<hr/>
	16/16	313.9

provided that the diversion works under this right may be extended to control and divert all flows to which the shareholders are entitled occurring in either the east or the west channels of South Cow Creek.

DENIED CLAIMS

28. IT IS FURTHER ORDERED, ADJUDGED, AND DECREED:

That claimants Gerald F. Hish and Mildred Hish who filed claim No. 171 in the proceeding claiming riparian rights to water from Lower Cow Creek on lands not presently contiguous to the stream have no right, title or interest in or to the waters of Cow Creek under said Claim and said claim is denied.

RETENTION OF JURISDICTION

29. That the Court retains continuing jurisdiction of the parties to this proceeding, and of the subject matter hereof, and upon application of any party hereto, or successor in interest thereof, or upon its own motion, to review this decree and to change or modify the same as the interests of justice may require.

EFFECT OF DECREE

30. That each and every party to this action, his or her agents, successors, grantees and assigns, be and hereby are perpetually enjoined and restrained from doing anything in violation of the terms or provisions of this judgment and decree, and from diverting any water from said Cow Creek Stream System as defined herein at any time in excess of a quantity reasonably necessary for, and actually applied to, reasonable beneficial use, under and by reasonable methods of diversion and use, and from doing anything, directly or indirectly, that will obstruct or interfere with any right of another adjudged and decreed herein.

31. This decree is conclusive as to the rights of all existing claimants upon the Cow Creek Stream System as defined herein lawfully embraced in this determination.

32. Any person who has failed to appear and submit proof of his claim as provided in Chapter 3, Division 2 of the Water Code, shall be barred and estopped from subsequently asserting any rights heretofore acquired upon the Cow Creek Stream System as defined herein and has forfeited all rights to water heretofore claimed by him on said system, other than as provided in this decree, unless entitled to relief under the laws of this State.

Done this 25 day of August, 1969.

R. W. ABBE

Judge of the Superior Court
