

Public Notice - 401 Certification/Dredge or Fill Waste Discharge Requirements Application

Date:

September 8, 2021

Applicant:

Department of Water Resources
Vivien Maisonneuve (Program Manager II)
715 P Street, Sacramento, CA 95814
Phone: (916) 873-6796
Email: Vivien.Maisonneuve@water.ca.gov

Duly Authorized Representative:

N/A

Project Name:

Clubhouse, Tule Wash, and Bombay Beach West Vegetation Enhancement & Dust Suppression Projects, Located in Imperial County, California.

WDID No. 7A333231001, RM 444620, Place ID 875856

Receiving Water:

- All Project Sites: Salton Sea, Unnamed Ephemeral Washes and Drainages
- Clubhouse Site: Big Wash, Grave Wash, Palm Wash, Anza Ditch
- Tule Wash Site: Arroyo Salado Wash, Tule Wash
- Bombay Beach West Site: Salton Sea

Location:

City or area: Imperial County, California

Latitude/Longitude and Section, Township, Range:

Site	Latitude/Longitude	Section, Township, Range
Clubhouse	33.33588, -115.94868	30,32, T9S, R10E 4, T10S, R10E
Tule Wash	33.282221, -115.87881	14, 24, 25, T10S, R10E 30, 31, T10S, R11E 6, T11S, R11E
Bombay Beach West	33.350023, -115.742698	32, T9S, R12E

Project Description:

The Salton Sea Management Program Phase 1: 10-Year Plan (Plan) calls for the development of approximately 30,000 acres of habitat enhancement and dust suppression projects to reduce emissions from the exposed lakebed around the Salton Sea. Using a variety of dust control treatments and vegetation enhancement as appropriate for each project location within the next 10 years, the Clubhouse, Tule Wash and Bombay Beach West Vegetation Enhancement & Dust Suppression Project is proposed as part of the Plan. All of the project sites include the following components/activities: increasing the surface roughness through placement of non-erodible organic elements, placement of sand fences, creating furrows to promote stormwater spreading, establishing, and expanding native vegetation through stormwater spreading and groundwater supply, establishing groundwater supplies, and monitoring and assessment of the proposed components.

Anticipated Project Start and End Dates:

November 1, 2021 – December 31, 2026

US Army Corps of Engineers Nationwide Permit Number(s):
