Request for Stay

Hoffman Pit Mine , Sowle Bros II mining claim.

I Wayne Sowle hereby request a stay from enforcement action by the California Water Board.

Reasons are as follows:

1. Irreparable and irreversible harm to Wayne Sowle will occur.
2. No immediate or any substantial harm to other persons or to the environment will occur.
3. There are substantial questions of LAW and FACTS regarding the disputed Water Board Action.

There is not storm water runoff. All water is collected in pools and used by closed circuit mining.

No tailing are ever discharged from the mine.

I allege fraud and illegal collusion and civil rights violations . Equal users of land doctrine established by the Supreme Court is being ignored by the Water Board.

These are the facts under penalty of perjury.

Signed : Wayne Sowle
