**Subject:** A message to the SWRB from a living human being

Even after MANY outside studies have shown that by you, The SWRB, still plan to steal from us 40% of our water? Unbelievable! In my mind and the majority of us here in California, you, The SWRB are nothing more than downright water thieves and care but NO ONE but the fish who will NEVER benefit from your "water grab" You thieves will be in for one of the biggest lawsuits this state has ever had. As a person whose job depends on AG, you can rest assured that while I'm not working to feed the farmer that you plan on killing with your hogwash plan, I will be standing by their side defending them so thieves like you can be defeated by any costs. You want a fight? Well it won't be a fight. You have now made this a WAR! Good job SWRB! This is not a request for you to stop this bill, I'm telling you it will be a long lasting effort from us, the human being, to defeat it! You should be ashamed of yourselves. Sincerely: An unimportant human being in your eyes.
