

TO: JEANINE TOWNSEND, CLERK TO THE BOARD
FROM: STUART HELLER
SUBJECT: COMMENT LETTER - BAY - DELTA PLAN

Since I am a California licensed fly fishing guide and occasionally take clients on the rivers mentioned in the plan, I am totally in favor of the proposed increases in those river flows to help improve the fishing and other water quality situations.

Some of my livelihood depends on the number of clients seeking fly fishing guides. If the fishing was reported to be improving due to the increased flows, then it follows that more people would be interested in learning how to fly fish and the number of fishing licenses sold would increase instead of decreasing like it has been doing for many years.

Please pass my support along to the decision makers.

Thanks,

Stuart Heller
