

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 78-58

AUTHORIZING THE EXECUTIVE DIRECTOR TO NEGOTIATE
AND EXECUTE A CONTRACT WITH THE STINSON BEACH
COUNTY WATER DISTRICT FOR A DEMONSTRATION
ON-SITE WASTEWATER MANAGEMENT DISTRICT

WHEREAS:

1. On-site systems can provide a less expensive method of wastewater management for the rural community than conventional collection and central treatment systems. This would have a significant beneficial impact on the State's water quality programs by reducing the cost of wastewater management projects in rural areas by eliminating the need for expensive wastewater collection.
2. To be reliable, on-site systems require appropriate routine inspection and maintenance. The public on-site wastewater management district concept would insure the proper inspection and maintenance for on-site systems.
3. Information on the costs and procedures for public on-site wastewater management districts is needed by State Board staff, local agencies, and consultants to provide a reliable basis for evaluating this wastewater management alternative.
4. The opportunity is available to assist with and study the implementation of a full-scale on-site wastewater management district in a rural community which will demonstrate the procedures, costs, and facilities required for an on-site wastewater management district.

THEREFORE BE IT RESOLVED:

The Executive Director is authorized to negotiate and execute a contract with the Stinson Beach County Water District for a demonstration on-site wastewater management district for a duration not to exceed two years and an amount not to exceed \$48,000.

CERTIFICATION

The undersigned, Executive Director of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on September 25, 1978.

Executive Director
(Clint Whitney)
