

Errata
May 20, 2008 State Water Board Meeting Agenda
Item 6

The following changes (shown by underline in the text below) should be made to the April 18, 2008 Draft Order entitled "In the Matter of Wastewater Change Petition WW-0045 City of Riverside"

Order

Draft Order, p.13

9.0 Conclusion

5. The City shall conduct its existing monthly monitoring and report the results of the monitoring annually to the DFG and the State Water Board in a form approved by DFG and the State Water Board. At a minimum, reporting shall include average monthly flow data that indicates any changes in the amount of flow in the Santa Ana River caused by changes in the City's discharge of effluent from its wastewater treatment facility. This provision shall bind any transferees and assignees of the approval granted under this order.

6. The City shall conduct its required monthly monitoring and report the results of the monitoring quarterly to the State Water Board and Center for Biological Diversity in a mutually approved form. At a minimum, reporting shall include average monthly flow data as recorded by the City at the RWQCP outfall structure meter, which reflects any changes in the amount of effluent flow discharged to the Santa Ana River by the City from the RWQCP, and water quality data gathered by the City and submitted to the California Regional Water Quality Control Board, Santa Ana Region, in accordance with the City's National Pollutant Elimination Discharge System permit.

The City shall notify the Center 60 days in advance of any plans to decrease its effluent discharge to the Santa Ana River, as measured at the outfall structure meter. This provision shall bind any transferees and assignees of the approval granted under this order.

7. The City shall post and maintain the annual and quarterly monitoring reports required by paragraphs 5 and 6, above, on its website. The reports shall remain posted for at least five years.
