Subject: "2/2/16 BOARD MEETING (Conservation Extended Emergency Regulation)."

State Water Board:

PLEASE WAIT!!! It is much too early to know the water situation for the year. I understand we will still be in a water deficit, but frankly, I don't think you will have the public's support just yet because the public is optimistic this is a good year. Once the severity is known, it is much easier to make a plan with ACTUAL precipitation and snow pack numbers. At that point, you can round up public commitment with a realistic budget. Drastic cuts at this point will make you sound like Henny Penny ("The sky is falling!!!). Patience will serve you well.

Thank you for your consideration!
