

This Change Sheet identifies revisions made to the proposed resolution adopting the human right to water as a core value and directing its implementation in Water Board programs and activities. Changes are identified by **blue underline** for insertions and **red strikethrough** for deletions.

### **CHANGES TO THE DRAFT STATE WATER BOARD RESOLUTION**

#### **Page 2, recital 6:**

6. Preventing and/or addressing discharges that could threaten human health by causing or contributing to pollution or contamination of drinking water sources **of waters of the state**, are among the Water Boards' highest priorities, **and such discharges should be regulated to attain the highest water quality which is reasonable, considering all demands being made on those waters and the total values involved. (Wat. Code, §§ 13000, 13050, subds. (i)-(m), 13240, 13241, 13263.)** **When regulating discharges that could threaten human health by causing or contributing to pollution or contamination of drinking water sources, the Water Boards may consider all solutions for ensuring safe drinking water, including P** providing replacement water **is as** an interim solution **that may be used to address such discharges** while long-term water quality solutions are developed.

#### **Page 3, resolve 2:**

2. Will continue to consider, and encourages the Regional Water Boards to continue considering, the human right to water in all activities that could affect existing or potential sources of drinking water (MUN), including, but not limited to, revising or establishing water quality control plans, policies, and grant criteria, permitting, site remediation, monitoring, and water right administration. However, **this resolution does not expand the legal scope of the human right to water as described in Water Code section 106.3, alter** **nothing in this resolution changes, or is intended to change,** the Water Boards' authority and obligations under applicable law, **or impose new requirements on the regulated community.**
