**Subject:** February 8, 2017 BOARD MEETING (Conservation Extended Regulation)  
**Date:** Friday, February 03, 2017 11:55:27 AM

---

Dear Members of the SWRCB;

As a life-long Californian, I am writing to encourage you not to extend the conservation extended regulation as it is not necessary. It is clear that we are no longer in a drought as we are releasing water on a daily basis to prevent the lakes and dams from overflowing. The Governor has also declared a State of Emergency for the flooding that has occurred, which makes it even more illogical that this Board is even considering extending the drought declaration. The snowpack is at an all-time high, it's raining today throughout the State, and is forecast to continue into the Spring. I believe that the citizens of California, because of the drought, have become very water conscious and have learned to conserve and respect their water. They are not water wasters and will be good stewards of the resource without this Board regulating them.

Thank you for your time.

Nancy Petersen
