

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
CENTRAL VALLEY REGION

ORDER R5-2014-0060

**RESCINDING NPDES/WASTE DISCHARGE REQUIREMENTS ORDERS**

- a. **CANBY RANGER STATION, MODOC COUNTY (FACILITY).**Waste Discharge Requirements Order No. 5-01-173, adopted on 14 June 2001, prescribes requirements for the discharge from Canby Ranger Station, Modoc County (Facility). The Facility consists of a wastewater collection system discharging to an evaporation/percolation pond. The Facility is now regulated under General Order 97-10-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 20,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 5-01-173.
- b. **COTTONWOOD CREEK SAND & GRAVEL, TEHAMA COUNTY (FACILITY).** Waste Discharge Requirements Order No. 94-310, adopted on 28 October 1994, prescribes requirements for the discharge from Cottonwood Creek Sand & Gravel, Tehama County (Facility). The Facility consists of two extraction pits, a sorting plant, and rock stockpiles on 160 acres adjacent to Cottonwood Creek. Approximately 0.72 million gallons per day of gravel wash water was discharged to three settling ponds. The Facility no longer extracts, crushes, washes, or sorts gravel. Storm water from the facility will continue to be regulated by General Order 97-03-DWQ (General Order) for discharges of storm water associated with industrial activities excluding construction activities. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 94-310.
- c. **COUNTY OF KERN, COUNTY SERVICE AREA 56, TRACT 3848, WASTEWATER TREATMENT SYSTEMS, KERN COUNTY**  
Waste Discharge Requirements Order 78-038, adopted on 17 March 1978, prescribes requirements for the discharges of individual septic tanks to leachfield systems in Kern County Service Area 56, Tract 3848. The County of Kern applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 17 January 2014. Therefore, WDRs Order 78-038 is no longer necessary and should be rescinded.
- d. **DOLE FRESH VEGETABLES, INC. AND WILD ROSE VINEYARD LLC, FORMER DOLE FRESH FOODS SITE, SAN JOAQUIN COUNTY.** Waste Discharge Requirements Order (WDRs) R5-2008-0063, adopted 28 April 2008, prescribes requirements for post-closure operations and maintenance of surface impoundments at the former Dole Fresh Foods site in Victor, San Joaquin County. In 2005, the Discharger closed unlined cherry brine impoundments by removing salt contaminated soil, backfilling to grade with clean fill, and installing a low hydraulic conductivity soil layer and vegetative soil layer final cover. Soil with relatively low levels of salts was left in place beneath the former impoundments. The final cover over the footprint of the closed impoundments has been graded to drain. The Discharger placed an approved Covenant and Environmental Restriction on the property restricting future development without review and approval by the Central Valley Water Board due to salt constituents remaining in soil beneath the former ponds. Subsequent groundwater monitoring indicates that salt concentrations in downgradient wells have declined significantly and are approaching background levels. There is no significant continuing threat to water quality from the former impoundments. Therefore, WDRs are no longer necessary and Order R5-2008-0063 should be rescinded.
- e. **HARTLAND CHRISTIAN ASSOCIATION, HARTLAND CHRISTIAN CAMP ONSITE WASTEWATER TREATMENT SYSTEM, TULARE COUNTY**  
Waste Discharge Requirements Order 94-021, adopted on 28 January 1994, prescribes requirements for the discharge from the Hartland Christian Camp's onsite wastewater treatment system in Badger. The Hartland Christian Association applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 17 January 2014. Therefore, WDRs Order 94-021 is no longer necessary and should be rescinded.

- f. **I'SOT INC., MODOC COUNTY (FACILITY).** Waste Discharge Requirements Order No. 93-085, adopted on 25 June 1993, prescribes requirements for the discharge from I'SOT Inc., Modoc County (Facility). The Facility consists of a wastewater collection system and lift station discharging to evaporative ponds. The Facility is now regulated under General Order 97-10-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 20,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 93-085.
- g. **LAKE SHASTA MOBILE HOME PARK, SHASTA COUNTY (FACILITY).**Waste Discharge Requirements Order No. 86-063, adopted on 28 March 1986, prescribes requirements for the discharge from Lake Shasta Mobile Home Park, Shasta County (Facility). The Facility consists of a wastewater collection system and lift station discharging to evaporation/percolation ponds. The Facility is now regulated under General Order 97-10-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 20,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 86-063.
- h. **OCEAN PARK MANOR LLC, SEQUOIA DAWN APARTMENTS WASTEWATER TREATMENT FACILITY, TULARE COUNTY.** Waste Discharge Requirements Order 86-067, adopted on 28 March 1986, prescribes requirements for the discharge from the Sequoia Dawn Apartment's wastewater treatment facility in Springville. Ocean Park Manor, LLC, applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 10 January 2014. Therefore, WDRs Order 86-067 is no longer necessary and should be rescinded.
- i. **MERCED IRRIGATION DISTRICT, MCSWAIN RECREATION AREA WASTEWATER TREATMENT FACILITY, MARIPOSA COUNTY.** Waste Discharge Requirements Order 85-161, adopted on 28 June 1985, prescribes requirements for the discharge from the McSwain Recreation Area's wastewater treatment facility at McSwain Reservoir. The Merced Irrigation District applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 10 January 2014. Therefore, WDRs Order 85-161 is no longer necessary and should be rescinded.
- j. **MERCED IRRIGATION DISTRICT, BARRETT COVE RECREATION AREA WASTEWATER TREATMENT FACILITY, MARIPOSA COUNTY.** Waste Discharge Requirements Order 85-162, adopted on 28 June 1985, prescribes requirements for the discharge from the Barrett Cove Recreation Area's wastewater treatment facility at Lake McClure. The Merced Irrigation District applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 10 January 2014. Therefore, WDRs Order 85-162 is no longer necessary and should be rescinded. (LR)
- k. **MERCED IRRIGATION DISTRICT, HORSESHOE BEND RECREATION AREA WASTEWATER TREATMENT FACILITY, MARIPOSA COUNTY.** Waste Discharge Requirements Order 85-163, adopted on 28 June 1985, prescribes requirements for the discharge from the Horseshoe Bend Recreation Area's wastewater treatment facility at Lake McClure. The Merced Irrigation District applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 10 January 2014. Therefore, WDRs Order 85-163 is no longer necessary and should be rescinded.
- l. **MERCED IRRIGATION DISTRICT, MCCLURE POINT RECREATION AREA WASTEWATER TREATMENT FACILITY, MARIPOSA COUNTY.** Waste Discharge Requirements Order 85-164, adopted on 28 June 1985, prescribes requirements for the discharge from the McClure Point Recreation Area's wastewater treatment facility at Lake McClure. The Merced Irrigation District applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 10 January 2014. Therefore, WDRs Order 85-164 is no longer necessary and should be rescinded.
- m. **MOUNTAIN GATE RECREATIONAL VEHICLE PARK, SHASTA COUNTY (FACILITY).** Waste Discharge Requirements Order No. 95-005, adopted on 27 January 1995, prescribes requirements for the discharge from Mountain Gate Recreational Vehicle Park, Shasta County (Facility). The Facility consists of a wastewater collection system and lift station discharging to leach fields. The Facility is now regulated under General Order 97-10-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 20,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 95-005.

- n. **PACIFIC SKYLINE COUNCIL, BOY SCOUTS OF AMERICA, U.S. FOREST SERVICE AND U.S. DEPARTMENT OF AGRICULTURE, CAMP OLJATO ONSITE WASTEWATER TREATMENT SYSTEM, FRESNO COUNTY.** Waste Discharge Requirements Order 94-104, adopted on 22 April 1994, prescribes requirements for the discharge from Camp Oljato's onsite wastewater treatment system at Huntington Lake. Pacific Skyline Council, Boy Scouts of America, applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 20 February 2014. Therefore, WDRs Order 94-104 is no longer necessary and should be rescinded.
- o. **RAWHIDE INVESTMENT CORPORATION, RAWHIDE MOBILE HOME PARK WASTEWATER TREATMENT FACILITY, TUOLUMNE COUNTY.** Waste Discharge Requirements Order 85-126, adopted on 14 May 1985, prescribes requirements for the discharge from the Rawhide Mobile Home Park's wastewater treatment facility in Jamestown. The Rawhide Investment Corporation applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 13 February 2014. Therefore, WDRs Order 85-126 is no longer necessary and should be rescinded.
- p. **SACRAMENTO COUNTY AIRPORT SYSTEM, SACRAMENTO INTERNATIONAL AIRPORT TERMINAL MODERNIZATION PROJECT, SACRAMENTO COUNTY.** Conditional Waiver of Waste Discharge Requirements Order R5-2009-0022, which was adopted on 5 February 2009, prescribes requirements for a discharge of groundwater associated with construction dewatering for the new Sacramento International Airport Terminal. The construction project has been completed and the discharge has permanently ceased. Therefore, the waiver is no longer necessary and Order R5-2009-0022 should be rescinded.
- q. **TEICHERT CONSTRUCTION COMPANY AND STEWART WELLS, NYACK PORTABLE BATCH PLANT, PLACER COUNTY.** Conditional Waiver of Waste Discharge Requirements Order R5-2010-0122, which was adopted on 10 December 2010, prescribes requirements for management of process wastewater and solids from a temporary concrete batch plant in Nyack, Placer County. The construction projects that the facility served have been completed, and the batch plant and all wastes have been removed from the site. Therefore, the waiver is no longer necessary and Order R5-2010-0122 should be rescinded. (ALO)
- r. **UNIVERSITY OF CALIFORNIA, DAVIS, USDA AQUATIC WEED CONTROL LABORATORY, YOLO COUNTY.** The United States Department of Agriculture (USDA) and the University of California, Davis (Discharger) operate an aquatic weed control laboratory that specializes in fish culture, aquatic plant culture, and weed control testing. Order R5-2008-0107 currently permits discharges of wastewater to Putah Creek. On 20 November 2012 the Discharger sealed the flap gate that provided the unused but potential pathway for wastewater to discharge to Putah Creek. On 27 November 2013 the Discharger submitted a Report of Waste Discharge to the Central Valley Regional Water Quality Control Board's (Central Valley Water Board) Non 15 Permitting program requesting coverage to discharge to land. The Facility no longer discharges, nor has the ability to discharge, to Putah Creek, and therefore, it is appropriate to rescind Waste Discharge Requirements Order R5-2008-0107, NPDES No. CA 0083364.

IT IS HEREBY ORDERED that the above NPDES and WDR orders are rescinded.

I, PAMELA C. CREEDON, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on, March 28, 2014.
