

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
COLORADO RIVER BASIN REGION**

SPECIAL BOARD ORDER NO. R7-2011-0016
AMENDING CEASE AND DESIST ORDER NO. R7-2009-0061
NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
PERMIT NO. CA0104361 FOR THE
CITY OF HOLTVILLE WASTEWATER TREATMENT PLANT
City of Holtville – Imperial County

The California Regional Water Quality Control Board, Colorado River Basin Region (hereinafter Regional Water Board), finds:

1. The City of Holtville (hereinafter Discharger) owns and operates a wastewater collection system and wastewater treatment plant (WWTP) (hereinafter "Facility") that provides sewerage service to the City of Holtville. The WWTP has a treatment capacity of 0.85 million gallons per day (MGD) and is located at 1250 Kamm Road, Holtville, CA 92250.
2. On June 21, 2006, the Regional Water Board adopted Board Order No. R7-2006-0050, NPDES Permit No. CA0104361, prescribing Waste Discharge Requirements for the Discharger's WWTP for the discharge of 0.85 million gallons per day (MGD) of secondary treated wastewater to the Pear Drain, a water of the United States. The Pear Drain conveys the effluent to the Alamo River, then to the Salton Sea. Board Order No. R7-2006-0050 will expire on June 21, 2011.
3. Among other requirements, Board Order No. R7-2006-0050, Section IV.A.1.a prescribes Interim and Final Effluent Limitations for Discharge Point 001 for Total Ammonia as Nitrogen. The Interim Effluent Limitation became effective June 21, 2006 and the Final Effluent Limitation became effective on May 19, 2010.
4. On September 17, 2009, the Regional Water Board adopted Cease and Desist Order (CDO) No. R7-2009-0061 to address violations of Board Order No. R7-2006-0050. Pursuant to California Water Code (CWC) Section 13385(j)(3), paragraph 13 of the CDO exempts the Discharger from Mandatory Minimum Penalties (MMPs) for violations of the Final Effluent Limitation for Total Ammonia as Nitrogen if the Discharger is in compliance with the CDO. Accordingly, the exemption from MMPs for violations of the Final Effluent Limitation for Total Ammonia as Nitrogen became effective on the date the CDO was adopted. As long as the Discharger is in compliance with the CDO, the exemption shall remain in effect until December 31, 2013, the date when the WWTP improvements must be completed and full compliance with Board Order No. R7-2006-0050 must be achieved, as specified in Ordered Paragraph 1 of the CDO.
5. CDO No. R7-2009-0061 may be modified, rescinded and reissued, for cause. The filing of a request by the Discharger for a Board Order modification, rescission and reissuance, or a notification of planned changes or anticipated noncompliance does not stay any Board Order condition. Causes for modification include, but are not limited to, the promulgation of new regulations, modification of land application plans, or modification in sludge use or disposal practices, or adoption of new regulations by the State Water Board or the Regional Water Board, including revisions to the Basin Plan.
6. On September 29, 2010, in a letter to the Assistant Executive Officer (AEO), the Discharger requested that the time schedule set forth in Ordered Paragraph 1 of CDO R7-2009-0061 be amended in order to obtain funding necessary to complete the WWTP improvements as required by the CDO. The Discharger's letter stated that it will continue to work with funding agencies in

Special Board Order No. R7-2011-0016
 Amending Cease and Desist Order No. R7-2009-0061
 City Of Holtville Wastewater Treatment Plant

securing funding for the design and construction of the WWTP improvements required to comply with Board Order R7-2006-0050. The Discharger is also conducting a Sewer Rate Study to identify additional revenue the City can provide along with the funding from other sources to complete the WWTP improvements. Accordingly, this Special Board Order revises CDO No. R7-2009-0061 to extend the milestone deadlines specified on page 5, Ordered Paragraph No. 1 for Milestones 1, 2, 3 and 4, as specified below in this Special Board Order. These milestones pertain to completion of construction and operational start-up of the new wastewater treatment plant upgrades and to achieving full compliance with Board Order No. R7-2006-0050. Water Code section 13385(j)(3)(C) provides that a time schedule specified in a CDO may not exceed five (5) years in length for bringing a waste discharge into compliance with an effluent limitation. Board Order No. R7-2009-0061 was adopted on September 17, 2009, thus, the latest revised milestone specified below of August 17, 2014, complies with this statutory requirement.

7. The Regional Water Board published Public Notice No. 7-11-10 for this Special Board Order on January 6, 2011.
8. Issuance of this Special Board Order amending CDO No. R7-2009-0061 to enforce CWC, Division 7, Chapter 5.5 is exempt from the provisions of CEQA (Pub. Resources Code, § 21000 et seq.), in accordance with Section 15321 (“Enforcement Actions by Regulatory Agencies”) Title 14, California Code of Regulations.

IT IS HEREBY ORDERED, that Cease and Desist Order No. R7-2009-0061 is amended in the manner specified below upon the effective date of this Special Board Order, and, in order to meet the provisions contained in Division 7 of the California Water Code (CWC) and regulations adopted thereunder, and the provisions of the federal Clean Water Act (CWA), and regulations and guidelines adopted thereunder, the Discharger shall comply with the requirements in this Special Board Order as well as with those portions of CDO No. R7-2009-0061 that were not amended by this Special Board Order:

Page 5, Ordered Paragraph No. 1: WWTP Improvements/Upgrades. **Modify Completion dates of Milestones** as follows:

WWTP Improvements/Upgrades—The Discharger shall complete the proposed WWTP improvements and upgrades to achieve consistent compliance with Board Order No. R7-2006-0050 and shall submit the required design plans and specifications and long-term revenue plan for operation and maintenance of proposed upgrades, and documentation to the Regional Board, by the designated completion dates specified below:

WWTP UPGRADES			
MILESTONE	MILESTONE DESCRIPTION	MILESTONE SUBMITTAL	COMPLETION DATE
1	Complete WWTP Engineering Report	Submit a Copy of WWTP Engineering Report	September 27, 2011
2	Complete Pollution Prevention Plan	Submit a Copy of Pollution Prevention Plan	November 27, 2011

Special Board Order No. R7-2011-0016
 Amending Cease and Desist Order No. R7-2009-0061
 City Of Holtville Wastewater Treatment Plant

3	Obtain and Secure Funding for Design, Bidding and Construction Costs	Submit Copy of Funding Agency Approval Letter	June 27, 2012
4	Complete Design of WWTP Improvements	Submit a Copy of final Design Drawings, Specifications and Contract Documents	March 27, 2013
5	Complete Bidding and Award of WWTP Improvements	Submit Copy of Bidding Documents	June 27, 2013
6	Construction of WWTP Improvements	Submit Summary and Verification of Construction Completion	August 17, 2014
7	Achieve full compliance with Order No. R7-2006-0050 (NPDES Permit No. CA0104361)	Submit written certification that WWTP is in compliance with Order No. R7-2006-0050 (NPDES Permit No. CA0104361)	August 17, 2014

I, Robert E. Perdue, Executive Officer, do hereby certify the following is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Colorado River Basin Region, on January 20, 2011.

Robert E. Perdue, P.E.

 ROBERT E. PERDUE, Executive Officer
