Project Description:

The proposed project includes the construction of 2,200 linear foot extension to an existing 54-foot-wide private use airstrip including the creation of a proposed 6-foot-wide drainage swale along the south side of the extension. The 0.3-acre constructed swale would be the extension of the existing swale along the south side of the existing airstrip. The eastern 100 feet of the new swale would be deepened to 8 feet to form a runoff containment ditch.
