Subject: Comment Letter–LA River Metals TMDL due 9.30.2015 NOON

This TMDL was established by a SEP. We are unclear what the baseline is to establish degradation or if they are arbitrary.

California Water Code (CWC) Section 13241 Economic Considerations appear to be defined in savings reduction, but what is the cost?

California Water Code (CWC) Section 13241 Need to Develop Housing within the Region has not addressed costs to the homeowner.
