Ms. Jeanine Townsend  
Clerk to the Board  
State Water Resources Control Board  
1001 I Street, 24<sup>th</sup> Floor 95814  
P.O. Box 100  
Sacramento, CA 95812-0100

Dear Ms. Townsend:

RE: UST CASE CLOSURE, PETITION OF THE FORMER CHEVRON SERVICE STATION, 631 WEEST CARRILLO STREET, SANTA BARBARA

The Santa Barbara County Local Oversight Program (County) respectfully submits for State Water Resources Control Board (SWRCB) consideration the following comments regarding the proposed underground storage tank closure at the subject site:

Four vapor extraction wells and eleven groundwater monitoring wells installed by Chevron remain in the site vicinity. During a telephone conversation with County staff on May 24, 2010, Chevron representative Stacie H. Frerichs confirmed that at the time of case closure, Chevron intends to properly destroy these wells.

If the SWRCB determines that case closure is warranted, the County requests that the SWRCB require as a condition of closure the proper destruction of eleven monitoring wells and four vapor extraction wells in accordance with City and County of Santa Barbara regulations and permit conditions.

If you have any questions regarding the aforementioned, please do not hesitate to call Nathan West at (805) 681-4045. Written correspondence regarding this matter should be sent to FPD at 4410 Cathedral Oaks Road, Santa Barbara, CA 93110 or via facsimile at (805) 681-5563.

Sincerely,

Richard Todd  
Division Chief / Fire Marshal
