P.O. Box 100  
Sacramento, Ca 95812-0100

Dear Ms. Doduc and Ms. O'Haire:

My name is Lucy [REDACTED], my family and I have resided in Rialto, Ca, for twenty-five years. My son was eight and a half years old and my daughter was eleven months old at the time of our move to Rialto.

About three years ago because of problems with my thyroid I had half of my thyroid removed. My daughter now pregnant with her second child has been diagnosed with thyroid problems.

As a wife, mother and

Grandmother I am very concerned with the quality of our drinking water.

As I ~~talked~~ <sup>spoke</sup> ~~with~~ with my neighbors, friends and fellow Rialto residents, I am amazed at the amount of people with thyroid problems.

I worry about the health of my children and grand-children and also my husband's and my health.

Please help Rialto residents acquire drinking <sup>water</sup> that is Perchlorate free!! Our health depends on it.

Sincerely,

Lynn [REDACTED]
