### WASTEWATER USER CHARGE SURVEY FOR 1999-2000

Attached is the latest edition of the User Charge Summary prepared by this Division. This information included in this report was obtained from a questionnaire (see page No. 113) mailed to every public agency in California that owns and/or operates wastewater facilities. All 731 agencies comprising 908 service areas in the database are listed in the report. User charge and connection fee data was received from 651 agencies for 820 of the wastewater service areas. In order to identify service areas for which data was not received this year and for which the data may be out of date, a two digit number appears after their name (see Legend on Page No. 112). The two-digit number indicates the last fiscal year a questionnaire was received from the agency. (i.e. FY 1995-96 would be listed as 96) 72 cities were added to the database early this year. These cities are all located in Los Angeles County and receive wastewater treatment from the Sanitation Districts of Los Angeles County.

The data are presented in a manner similar to previous reports to facilitate comparisons with prior year reports. Care should be exercised in using this report since data have been listed as reported by the agencies and little time was available to verify the reported data. User fees reported for agencies that only provide collection service may not include any charge for treatment and disposal. I added the regional treatment authority's fee when I could determine that the reported fees did not include the regional charges. Some reported user fees may represent a bi-monthly fee and not a monthly fee as stated. Some user fees include charges for repayment of debt, future capital reserves, operating reserves, etc. while others only may only fund operation, maintenance and replacement (O.M.& R.) expenses only. I also identified agencies that have a variable residential user charge based on metered water consumption in lieu of a flat rate. Some agencies may utilize assessments or other sources of revenue for debt service, which should be considered when determining the total cost of providing wastewater service.

If you have any questions about this report, please contact me at (916) 227-4489 for assistance.  
Sincerely,

Ronald R. Blair  
Revenue Program Specialist
