

State of California  
Regional Water Quality Control Board  
San Diego Region

SUPPLEMENTAL  
EXECUTIVE OFFICER SUMMARY REPORT  
May 9, 2018

ITEM: 11

SUBJECT: Master Recycling Permit: United States Marine Corps Base Camp Pendleton, Southern Regional Tertiary Treatment Plant, San Diego County. Tentative Order No. R9-2018-0023 (*Alex Cali*)

PURPOSE: To consider adopting Revised Tentative Order No. R9-2018-0023 (Revised Tentative Order, Supporting Document No. 5).

RECOMMENDATION: Adoption of the Revised Tentative Order.

DISCUSSION: Marine Corps Base Camp Pendleton (MCBCP) submitted written comments regarding the Tentative Order on April 23, 2018. The San Diego Water Board has incorporated the MCBCP comments into the Revised Tentative Order, shown in redline and strikeout text in Supporting Document No. 5. The following sections of the Tentative Order have been revised: Attachment D - page D-5, Monitoring and Reporting Program Table 1, and Attachment D - page D-6, Monitoring and Reporting Program Table 2. The written comments and the San Diego Water Board responses can be found in Supporting Document No. 6.

The MCBCP comments requested the addition of bicarbonate to the effluent monitoring in order to calculate the adjusted sodium adsorption ratio. Bicarbonate was also added to the annual groundwater chemistry evaluation and comparison between the injection zone, shallow aquifer, and effluent from the Southern Regional Tertiary Treatment Plant.

SUPPORTING DOCUMENTS: Supporting documents 1-4 previously provided.

5. Revised Tentative Order No. R9-2018-0023.
6. Written Comments and San Diego Water Board Response.
