Good afternoon John

In response to the above referenced letter dated March 15, 2018, the County of Riverside Department of Environmental Health will be able to maintain oversight of the Murrieta Palms onsite wastewater treatment system. Based on the Regional Board's letter, the waste flows have been reduced to less than 10,000 gpd. The Department does have an MOU with the City of Murrieta and can provide oversight of onsite waste water treatment systems within the city limits in accordance with the LAMP.

If you have any questions, please feel free to contact me.

Thank you
