

**CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
SAN DIEGO REGION**

NOTICE OF PUBLIC HEARING AND WRITTEN COMMENT PERIOD

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is releasing, for public review and comment Tentative Order No. R9-2019-0092, *Waste Discharge Requirements for Sand Creek Development, LP, Tentative Tract Map No. 33356 (Amended Exhibit No. 3) Project, Riverside County* (Tentative Order).

The San Diego Water Board is considering adoption of the Tentative Order in response to a Report of Waste Discharger (ROWD) application submitted by Sand Creek Development, LP (Discharger) for the discharge of permanent fill material to 0.31 acre (1,908 linear feet) of ephemeral streambed waters of the State, and temporary fill to 0.59 acre (308 linear feet) of ephemeral streambed waters of the State from the Tentative Tract Map No. 33356 (Amended Exhibit No. 3) Project (Project). The Project is located at the northwest corner of the Anza Road and Linda Rosea Road intersection, east of the City of Temecula in unincorporated portion of southwestern Riverside County, California.

The Tentative Order authorizes unavoidable direct impacts by the Project to the ephemeral streambed waters and requires the Discharger to implement compensatory mitigation sufficient to offset the permanent impacts. Under the terms of the Tentative Order, the Discharger must provide assurance that replacement of the full range of lost aquatic resource(s) and/or functions through compensatory mitigation will be provided in perpetuity.
