DISCUSSION

This item affords the Board the opportunity to discuss issues they would like to appear on future agendas. This includes informational items, status reports, general updates, and priorities for consideration of permit issuance / reissuance. Additional tasks outside Board Meetings may also be requested. The public may also address the Board during this item. Updates on requested Future Agenda Items can be found in the Executive Officer's Report.

Two action items resulted from the February 2020 Board Meeting (Supporting Document No. 1). Chair Abarbanel requested an update regarding the potential to fund a climate scientist, either on staff or through a contract, with other Regional Boards. Additionally, Chair Abarbanel requested a meeting with the appropriate Congresspersons and County Supervisors to discuss the Tijuana River water quality issues and priorities for funding opportunities. In total, an estimated 160 hours of staff time was needed to address these requests.
