Sewer Systems Permit for the San Diego Region**

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is releasing, for public review, Tentative Time Schedule Order (TSO) No. R9-2024-0010, *An Order Requiring Designated Responsible Permittees to Comply With Bacteria, Project I-Twenty Beaches and Creeks Total Maximum Daily Load Requirements Prescribed in the Regional Municipal Separate Storm Sewer Systems Permit for the San Diego Region (Regional MS4 Permit)*. The Tentative TSO provides additional time to comply with the requirements of the Bacteria, Project I-Twenty Beaches and Creeks Total Maximum Daily Loads (Bacteria TMDLs) described in Specific Provision 6, Attachment E of the Regional MS4 Permit with respect to final dry weather water quality based effluent limitations for fecal indicator bacteria (FIB). The Tentative TSO includes interim milestones to attain compliance with the final dry weather requirements. The San Diego Water Board held a public workshop on Tentative TSO No. R9-2023-0006 at its regularly scheduled meeting on February 8, 2023. The San Diego Water Board received information and discussed the proposed requirements in Tentative TSO No. R9-2023-0006. The Board took no action. San Diego Water Board staff reviewed comments on Tentative TSO No. R9-2023-0006 received by the deadline of February 17, 2023, and prepared a revised Tentative TSO No. R9-2024-0010 to address several of the comments received. The San Diego Water Board expects to consider adoption of Tentative TSO No. R9-2024-0010 at its regularly scheduled meeting on March 13, 2024.
