I am one of the initial applicants from Trinity County , CA. As assigned I signed up with the North Coast Water Board since 2016, and have been working to meet the standards the NCWQCB. In addition , the U.O. and now the permanent ordinance n Trinity County has met CEQA guidelines. I urge you to grandfather those of us already enrolled into the NCWQCB program until the first renewal comes up; then we can adjust and fix any deficiencies that our farms still have in regards to the State Water Board Guidelines.

Thank you for considering my comment
