**Federal:**

FE = federal endangered  
 FT = federal threatened  
 FC = federal candidate  
 PT = proposed threatened  
 PFD = proposed for delisting  
 FD = delisted

**California:**

CE = California state endangered  
 CT = California state threatened  
 CR = California state rare  
 CCT = California state threatened candidate  
 CCE = California state endangered candidate

**CRPR Rank Categories:**

1A = Plants presumed extirpated in California and either rare or extinct elsewhere  
 1B = Plants Rare, Threatened, or Endangered in California and elsewhere.  
 2A = Plants presumed extirpated in California, but more common elsewhere  
 2B = Plants Rare, Threatened, or Endangered in California, but more common elsewhere  
 3 = Plants about which more information is needed - A Review List  
 4 = Plants of limited distribution - A Watch List

**CRPR Code Extensions:**

.1 = Seriously endangered in California (over 80% of occurrences threatened/high degree and immediacy of threat)  
 .2 = Fairly endangered in California (20-80% occurrences threatened)  
 .3 = Not very endangered in California (less than 20% of occurrences threatened or no current threats known)
