## State Water Resources Control Board

August 18, 2022

Dr. Bruce Sherf  
INDIGO Biosciences, Inc.  
3006 Research Drive  
Suite A1  
State College, PA 16801

Dear Dr. Sherf,

This letter serves as notice that INDIGO Biosciences, Inc. has been approved for the use of aryl hydrocarbon receptor (AhR) bioanalytical screening for monitoring for constituents of emerging concern pursuant to the Water Quality Control Policy for Recycled Water (Recycled Water Policy) as of the date of this letter.

INDIGO Biosciences, Inc. submitted a validation package for the AhR bioanalytical screening tool on March 1, 2021. This validation package demonstrated the utility of the AhR bioassay for use in a water quality representative of the matrices outlined in Attachment A of the Recycled Water Policy.

Approval for the use of this bioanalytical screening tool is only for the purposes outlined in the Recycled Water Policy, Attachment A, and this approval does not extend to the use of this method for any other purpose.

Sincerely,

Tina Low
