

JAMES W. MAY

23808 MALIBU CREST DRIVE

MALIBU, CALIFORNIA 90265

June 30, 2010

Mr. Charles R. Hoppin, Chair  
c/o Jeannie Townsend, Clerk of the Board  
State Water Resources Control Board  
P.O. Box 1000  
Sacramento, CA 95812

Dear Mr. Hoppin,

*PROPOSAL*  
I support the opposition of my neighbors in Malibu Knolls to the proposed of the septic system. The limited amount of seepage which occurs from residences of Malibu Knolls is highly unlikely to ever reach Malibu Creek. Ground Water Leaches vertically with very little horizontal. There are 8 residences on Malibu Crest Drive approximately 385 feet above sea level and are about 3/4 of a mile west of Malibu Creek. Most of Malibu Knolls rests on decomposed granite an excellent filtering agent. Water leaches vertically and any lateral seepage is very slight. It is highly unlikely that any ater from septic systems would travel approximately over 1/2 mile to Malibu Creek. As stated in letters submitted from Malibu Knolls residence, the cost of out-lawing septic systems would impose a prohibited burden to the residents of the Malibu Knolls and the Civic Center Area.

Sincerely Yours,

  
JAMES W. MAY
