PETITION FOR EXTENSION OF TIME

WATER USERS:

Application A022579 Permit 015341

Water Code section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board (SWRCB), in considering requests for extension of time, will review the facts presented to determine whether there is good cause for granting an extension of time to complete the project. Where diligence in completing the project is not fully substantiated, the SWRCB may set the matter for hearing to determine the facts upon which to base formal action relating to the permit. Formal action may involve:

1. Revoking the permit for failure to proceed with due diligence in completing the project.
2. Issuing a license for the amount of water heretofore placed to beneficial use under the terms of the permit.
3. Granting a reasonable extension of time to complete construction work and/or full beneficial use of water.

The time previously allowed in your permit within which to complete construction work and/or use of water has either expired or will expire shortly.

Please check below the action you wish taken on this permit.

The project has been abandoned and I request revocation of the permit.

Signature

Full use of water has been made, both as to amount and season, and I request license be issued.

Signature

The project is not yet complete. I request the SWRCB's consideration of the following petition for an extension of time.

**PETITION FOR EXTENSION OF TIME
If START of construction has been delayed**

Complete items 1, 2, and 3.

1. What has been done since permit was issued toward commencing construction?

2. Estimate date construction work will begin.

3. Reasons why construction work was not begun within the time allowed by the permit.

A 850 AFJ
P 50 Filing
7-19-02
KWR

PETITION FOR EXTENSION OF TIME
If construction work is proceeding

If construction work and/or use of water is proceeding but is not complete, an extension of time may be petitioned by completing items 4 through 16. Statements must be restricted to construction or use of water only under this permit.

4. A 10 - year extension of time is requested to complete construction work and/or beneficial use of water (Indicate number of years). *This figure based on metered water & does not include irrigation & dust control usage or*
 5. How much water has been used? 46 acre-feet/year fire protection cfs
 6. How many acres have been irrigated? 3+
 7. How many houses or people have been served water? 78 houses
 8. Extent of past use of water for any other purpose. Paradise Lodge Restaurant, 20 cabins & 19 RV hook-ups
 9. What construction work has been completed during the last extension? Well (920' deep); 78 WATER METERS. Installed PVC liners in both storage tanks; replaced 1600' of old water-main; currently assessing for new 150k. water tank
 10. Approximate amount spent on project during last extension period. \$ 285,000.00
 11. Estimate date construction work will be completed. 2020?
 12. Estimated year in which water will be fully used. 2020?
 13. Reasons why construction and/or use of water were not completed within time previously allowed. Currently only 67% of water users are being served. There are 54 more houses to be built before 100% of water use can be determined. By "behold-out" there will be a number of improvements in place: 1700' of 6" C-900 PVC pipe to complete distribution loop; a second well; standby generator and 150,000 gals of additional water storage. We are currently assessing for the new water storage tank project.
- If the use of water is for municipal (including industrial) and irrigation supplies and is provided or regulated by public agencies and use of the water has commenced, but additional time is needed to reach full use contemplated, the following information must be provided.
14. What water conservation measures are in effect or feasible within the place of use?

 15. How much water is being conserved or is it feasible to conserve using these conservation measures?
 _____ acre-feet per annum.
 16. How much water per capita is used during the maximum 30-day period? _____ gpd.

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

Dated: July 8, 2002, at PARADISE LODGE, BISHOP, California
James K. Wrygel (LR CMWL 67%) David Plun (WILKES PARADISE INC 33%)
 Signature(s) Telephone No. 760-387-0070

NOTE: A \$50 FEE MADE PAYABLE TO THE State Water Resources Control Board must accompany a petition for an extension of time. An \$850 fee made payable to the Department of Fish and Game must accompany all but the first petition for an extension of time.

**ENVIRONMENTAL INFORMATION
FOR PETITIONS**

(THIS IS NOT A CEQA DOCUMENT)

APPLICATION NO. 22579

PERMIT NO. 15341

LICENSE NO.

The following information will aid in the environmental review of your change petition as required by the California Environmental Quality Act (CEQA). IN ORDER FOR YOUR CHANGE PETITION TO BE ACCEPTED AS COMPLETED, ANSWERS TO THE QUESTIONS LISTED BELOW MUST BE COMPLETED TO THE BEST OF YOUR ABILITY. Failure to answer all questions may result in your change petition being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

DISCRIPTION OF CHANGES TO PROJECT

1. Provide a description of the proposed changes to your project, including but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, changes in land use, and project operational changes, including changes in how the water will be used.

None of the following future projects will change or alter the existing diversion from Rock Creek. The development of future homes will determine the quantity of water necessary to provide adequate supply by build-out.

Business Plan Projects: 1) Install 1700 Ft. of 6" C-900 PVC p. pipe to complete distribution system loop; 2) construct additional 150,000 gal storage facility; 3) drill a second well; 4) 54 additional homes to be constructed before build-out of current subdivision; 5) potential for yet another 35+ homes in adjacent, new subdivision.

We are not planning any changes to the existing diversion. We are petitioning for an extension of completion as our subdivision is only 59% complete and it is difficult to determine our water requirements before build-out.

GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your change petition, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your proposed changes by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your change petition. The following questions are designed to aid us in that determination.

2. Contact your county planning or public works department for the following information:

a. Person contacted no changes/extension only Date of contact _____

Department _____ Telephone () _____

b. Assessor's Parcel No. _____

c. County Zoning Designation _____

d. Are any county permits required for your proposed changes? _____

If yes, check appropriate space below:

_____ Grading Permit, _____ Use Permit, _____ Watercourse

Obstruction Permit, _____ Change of Zoning, _____ General Plan

Change, Other (explain): _____

e. Have you obtained any of the required permits described above? _____

If yes, provide a complete copy of each permit obtained.

3. Are any additional state or federal permits required for your proposed changes? no changes/extension only (i.e., from Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management, Soil Conservation Service, Department of Water Resources (Division of Safety of Dams), Reclamation Board, Coastal Commission, State Lands Commission, etc.) For each agency from which a permit is required provide the following information:

Permit type _____

Person (s) contacted _____ Agency _____

Date of contact _____ Telephone () _____

4. Has any public agency prepared an environmental document for any aspect of your proposed changes? no changes/extension only

If so, please submit a copy of the latest environmental document (s) prepared, including a copy of the notice of determination adopted by the public agency. If not, explain below whether you expect that a public agency other than the State Water Resources Control Board will be preparing an environmental document for your change petition or whether the applicant, if it is a California public agency, will be preparing the environmental document for your change petition:

Note: When completed, please submit a copy of the final environmental document (including notice of determination) or notice of exemption to the State Water Resources Control Board. Processing of your change petition cannot proceed until such documents are submitted.

5. Will your proposed changes, during construction or operation, generate waste or wastewater containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? no If so, explain: _____
-
-
-

If yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

Will a waste discharge permit be required for your petition? no

Person contacted _____ Date of contact _____

What method of treatment and disposal will be used? _____

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? _____

Do you know of any archeological or historic sites located within the general project area?

no If so, explain: _____

ENVIRONMENTAL SETTING

7. Attach **THREE COMPLETE SETS** of color photographs, clearly dated and labeled, showing the vegetation currently existing at the following locations:

- a. Along the stream channel immediately downstream from the proposed point(s) of diversion
no proposed points
- b. Along the stream channel immediately upstream from the proposed point(s) of diversion
no proposed points
- c. At the place(s) where the water is to be used

Note: It is very important that you submit no less than three complete sets of photographs as required above. If less than three sets are submitted, processing of your change petition will be delayed until you furnish the remaining sets! *no changes/extension on it*

8. From the list given below, mark or circle the general plant community types which best describe those which occur within your project area (Note: See footnote denoted by * under Question 11 below):

Tree Dominated Communities

Subalpine Conifer
Red Fir
Lodgepole Pine
Mixed Conifer
 Sierran Mixed Conifer
 White Fir
 Klamath Mixed Conifer
Douglas-Fir
Jeffrey Pine
Ponderosa Pine
Eastside Pine
Redwood
Pinyon-Juniper
Juniper
Aspen
Closed-Cone Pine-Cypress
Montane Hardwood-Conifer
Montane Hardwood
Valley Foothill Hardwood
 Blue Oak Woodland
 Valley Oak Woodland
 Coastal Oak Woodland
Valley Foothill Hardwood-Conifer
 Blue Oak-Digger Pine
Eucalyptus
Montane Riparian
Valley Foothill Riparian
Desert Riparian
Palm Oasis
Joshua Tree

Shrub Dominated Communities

Alpine Dwarf-Shrub
Low Sage
Bitterbrush
Sagebrush
Montane Chaparral
Mixed Chaparral
Chamise-Redshank Chaparral
Coastal Scrub
Desert Succulent Shrub
Desert Wash
Desert Scrub
Alkali Desert Scrub

Herbaceous Dominated Communities

Annual Grassland
Perennial Grassland
Wet Meadow
Fresh Emergent Wetland
Saline Emergent Wetland
Pasture

Aquatic Communities

Riverine
Lacustrine
Estuarine
Marine

Developed Communities

Cropland
Orchard-Vineyard
Urban

Literature source: Mayer, K.E., and W.F. Laudenslayer, Jr., (eds). 1988. A Guide to Wildlife Habitats of California. California Department of Forestry and Fire Protection, Sacramento. 166 pp. (Note: You may view a copy of this document at our public counter at the address given

at the top of this form or you may purchase a copy by calling the California Department of Fish and Game, Wildlife Habitat Relationships (WHR) Program at (916) 653-7203).

9. Provide below an estimate of the type, number, and size (trunk/stem diameter at chest height) of trees and large shrubs that are planned to be removed or destroyed due to implementation of the proposed changes. Consider all aspects of your change petition, including changes in diversion structures, water distribution and use facilities, and changes in the place of use due to additional water development.

No changes / extension only

FISH AND WILDLIFE CONCERNS

10. Identify the typical species of fish which occur in the source(s) from which you propose to divert water and discuss whether or not any of these fish species or their habitat has been or would be affected by your proposed changes. (Note: See footnote denoted by * under Question 11 below):

Rainbow trout and Brown trout. Habitat slightly modified by existing intake structure. Diversion volume low enough to discourage entrainment and only used very infrequently

11. Identify the typical species of riparian and terrestrial wildlife in the area and discuss whether or not any of these species and/or their habitat has been or would be affected by your proposed changes through construction of additional water diversion and distribution works and/or changes in land use in the place of water use. (Note: See footnote denoted by * below):

willow, Birch, Jeffrey Pine vegetation, songbirds, raccoon, deer mouse, woodrat, ground squirrel, garter snake, western fence lizard, raptors, upland game and nongame species

*Note: The purposes of Question 10 and 11 are to provide a preliminary assessment of the presence of typical plant and animal species in the area and whether these species might be affected by your proposed changes. Detailed site surveys to quantify populations of specific species or determine the presence of rare or endangered species may be required at a later date. It is very important that you answer these questions accurately. If you are unable to obtain appropriate answers from your local California Department of Fish and Game biologists (See attachment for address and telephone number) or you do not have adequate information or expertise to complete your answers, you should hire a fishery consultant and/or a wildlife consultant to review your project and prepare suitable answers for you. For information on available qualified fishery or wildlife consultants near you, consult your local telephone directory yellow pages under Environmental and Ecological Services, or call the California Environmental Protection Agency, Registered Environmental Assessor (REA) Program, at (916) 324-6881 or the University of California, Cooperative Extension Service (See your local telephone directory white pages).

12. Do your proposed changes involve any construction or grading-related activity which has significantly altered or would significantly alter the bed or bank of any stream or lake? no

If so, explain: _____

CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Date 7/8/02 Signature James K. Meyer
