ATTACHMENT

The Permittee is requesting that the minimum bypass flows contained in the permit be modified to provide for a minimum bypass flow of 0.5cfs from April 7 through May 15 of each year, to facilitate the operation of the existing reservoir in a manner consistent with a proposed fish passage project being constructed by the Permittee to facilitate passage of steelhead to upstream reaches of Bear Canyon Creek. The Permittee has developed the fish passage project and reservoir operations plan with the assistance of the California Department of Fish and Game and the National Marine Fisheries Service.
