

Pump house at the base of the dam.

Spillway at Round Mountain Reservoir.

View looking down the ravine to the sump which is behind the trees in the background.

Deep ravine immediately above the sump. The ravine has steep sides and creates a channel for the runoff.

The dam at the Lower Reservoir looking to the west.

The Lower Reservoir looking north from the dam.

The spillway at the Lower Dam.

Location in York Creek where portable pump is placed for recharging the Lower Reservoir.
