GIVE REASON FOR PROPOSED CHANGE: The City of Atwater proposes to relocate its existing Wastewater Treatment Plant (WWTP). This was identified as the preferred alternative for the City to achieve compliance with the requirements in its existing NPDES Permit No. CA 0079197 that mandate the City's wastewater discharges meet disinfected tertiary effluent standards.

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of? (ownership, lease verbal or written agreement) There are no points of diversions or new places of use affected by this project.
If by lease or agreement, state the name and address of party(s) from whom access has been obtained.

Give the name and address of any person(s) taking water from the stream between the present point(s) of discharge and the proposed point(s) of redirection, as well as any other person(s) known to you who may be affected by the proposed change.
There are no known parties who divert water from the Atwater Drain between the current and proposed point of discharge.
Will this change involve water provided by a water service contract which prohibits your exclusive right to this treated water? No
Will any legal user of the discharge treated waste water be affected? No

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.
