ENVIRONMENTAL INFORMATION FOR PETITIONS

Petition for Change

Petition for Extension of Time

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

ENVIRONMENTAL INFORMATION - PETITIONS FOR EXTENSION

Jackson Valley Irrigation District (The District) has continued to expand our service within our Service Boundaries. Numerous water lines have been installed to provide water service to properties that were without water in the last ten years.

The District has over 6,000 acres of land that are still in need of water service. Our water facilities including storage will need to be enlarged to be able to serve even a small amount of this land. With the additional of a New/Rebuilt BioMass Power Plant and a new Casino the need for water is even greater then in the past.

The District has been working on a new Treated Water System that will cover most of the Valley. This system of a new treatment plant, storage tank and 20 miles of distribution system has been funded for Phase One , which will start construction in the Spring of 2011 and Phase Two is in the works and hopefully will be built in the next 3-5 years. Enclosed is the Environmental Document for Phase One of that project.

With most projects within our service area, the County of Amador is the lead Agency for CEQA/ environmental evaluations. Projects such as Rock Quarry expansions, RV Parks, Biomass Power Plant, Casinos, and Land divisions are or have been planned for Jackson Valley.
