Dear Chairman Hopping, SWRCB EXECUTIVE

I am not in favor of  
35 CSM for the Russian  
River. its to low to  
suppat a healthy system.  
lawns do not compare  
to a true ecosystem.  
we also need enough  
water to fight a fire.  
holes deep enough for  
choppers.

thanks for doing  
a difficult job.

Ron Amiot
