Subject: procedural question re permit conditions

Dear Hearing team,

I am unclear as to whether proposed permit conditions need to be submitted as part of sworn testimony, or whether proposed permit conditions may be submitted in the form of a short brief that recites the permit conditions and cites to sworn testimony in the record that supports each proposed condition.

Delta Alliance would prefer to wait until rebuttal and sur-rebuttal (if any) are completed so all evidence is in (including cross-examination) before submitting proposed permit conditions. Is this acceptable?

This is batch one of two emails.

Thank you,
