Dear Chairwoman Marcus,

Dwight D. Eisenhower once wrote:

"Farming looks mighty easy when your plow is a pencil and you are a thousand miles from the cornfield"

I beg of you to listen to the people by using your pencil to re-work a new plan.

We farmers can not give up 40% of the natural river flows to Sac-San Joaquin Delta. Our Don Pedro dam has been supplying us with water for cling peaches, almonds, and walnuts since 1912.

"Unavoidable losses to our region" is unacceptable to quote you.

Please consider and thank you
