## State Water Resources Control Board

April 17, 2013

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91)** **WATER RIGHT Permit 10477 (APPLICATION NO. A012842)**

North San Joaquin Water  
Conservation District  
PO Box 428  
Clements, CA 95227

Your Permit 10477 A012842 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under Permit 10477 A012842 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91) WATER RIGHT <<Interested Party>> 13194 (APPLICATION NO. A022598 IP - Notice Only\*)**

John Herrick  
Attorney at Law  
4255 Pacific Ave., Ste 2  
Stockton, CA 95207

Your <<Interested Party>> 13194 A022598 IP - Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under <<Interested Party>> 13194 A022598 IP - Notice Only\* from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

PO Box 580  
Arbuckle, CA 95912

Your Permit 18966 A023946 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under Permit 18966 A023946 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under License 12205 A024639 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Akin Ranch, A Partnership  
c/o James Akin  
PO Box 302  
Robbins, CA 95676

Your License 12264 A025883 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under License 12264 A025883 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

## State Water Resources Control Board

April 17, 2013

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91)** **WATER RIGHT Permit 20606 (APPLICATION NO. A026651)**

Pacific Gas & Electric Co.  
PO Box 770000-N11E  
San Francisco, CA 94177

Your Permit 20606 A026651 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under Permit 20606 A026651 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

## State Water Resources Control Board

April 17, 2013

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91)** **WATER RIGHT License 13447 (APPLICATION NO. A027555)**

John C. Campbell  
c/o MBK Engineers  
1771 Tribute Rd., Ste A  
Sacramento, CA 95815-4401

Your License 13447 A027555 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under License 13447 A027555 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

## State Water Resources Control Board

April 17, 2013

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91)** **WATER RIGHT License 13034 (APPLICATION NO. A028539)**

Armelim De Sousa, et al  
3030 S. Central Avenue  
Turlock, CA 95380

Your License 13034 A028539 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under License 13034 A028539 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

April 17, 2013

### **NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2013 (TERM 91)** **WATER RIGHT Permit 20972 (APPLICATION NO. A030177)**

Ben Brown Ranches, Inc.  
c/o Julie Brown  
PO Box 217  
Plymouth, CA 95669

Your Permit 20972 A030177 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under Permit 20972 A030177 from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

Your A99991 IP contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

**Based on projected water and weather conditions, you may not be able to divert water under A99991 IP from the period middle of May through August 31, 2013.**

**Note: Curtailment period can change based on up-to-date information.**

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961.

Sincerely,
