

Jessica: We have 2 last comments:

1. Many large private agricultural and ranch properties in our area spray irrigate large areas in the middle of the day. Half of the water is lost to evaporation and wind overspray. We would like to see some time of use restrictions on these folks. (e.g. no irrigating between the hours of 9 AM and 5 PM.)
2. Please provide small agencies more guidance and details on the December 15, 2015 reporting requirements.

Thanks,

Matt van der Linden, PE
