

February 3, 2010

I Barry Wallace a resident of Bakersfield, CA. would like to see the Kern river flowing with water on a year round basis. It is a beautiful site when water flows through the Kern River. Wildlife appears flowers grow and we citizens have a beautiful place to enjoy. I urge you to please support the City of Bakersfield application to allow water to flow in our dry river.

Barry Wallace

~~1~~ Urge the State Water Resources Control Board to approve the draft permit application and that the River is not fully appropriated and to support the City of Bakersfield's application to retain the unappropriated water down the historic Kern River channel.

Runnible water in the Kern River

- Restore our aquifer, which has become exhausted
- depleted during the recent drought
- Restore the natural flow of the Kern River
- Provide a solution to the Kern River
- Create a water permit system for Kern River
