Subject: RE: The West Side Irrigation District CDO Hearing: Motion to Continue Hearing Date

The Prosecution Team takes no position on WSID's Motion to Continue, except to note that the expansive PRA requests submitted by BBID and WSID go far beyond the technical documents underpinning the staff water unavailability determinations implicated in the enforcement actions. The technical documents underpinning those staff determinations were posted publicly online contemporaneously with those determinations, and remain available online. The Prosecution Team disclosed the vast majority of the technical documents relating to the PRA requests in October. The Prosecution Team disclosed additional technical documents and emails relating to the WSID matter in early November. The Prosecution Team has worked diligently to review many thousands of electronic mail messages and attachments relating to the PRA requests, most of which have little or no bearing on the enforcement actions but still fall under the broad scope of the PRA requests. Those documents will be disclosed to the parties beginning November 12.
