Mr. Baiocchi,

Thank you for the comment regarding the proposed Pit 1 Hydroelectric Project Water Quality Certification Amendment (Proposed Project). It has been placed in the record and will be taken into consideration. If you have any future questions or comments, I can be reached at this email address.

The State Water Resources Control Board will be issuing a Notice of Preparation for the Proposed Project shortly. This Notice will contain information regarding a scoping meeting and how to submit additional comments concerning potentially significant impacts of the Proposed Project, potential alternatives, and mitigation measures that should be analyzed. I will electronically send you a copy of this Notice when it is issued.

Mr. Jim Kassel
Division of Water Rights

Regarding the amendment to water quality certification for the Pit 1 Project. The Board's notice did not provide the e-mail address of Peter Barnes of the Division. Please forward to Mr. Barnes the following:

Said amendment should include a daily bypass flow requirement from the Fall River Dam in compliance with California Fish and Game Code 5937 to protect fish species and their habitat in Fall River below PG&E's Fall River Dam and also fish species and their habitat in the Pit River below the dam in the Pit River. Taking all of the water from Fall River by PG&E is a direct violation of Article 10 X, Section 2 of the State Constitution because it is the unreasonable diversion of the state's water. The time has arrived to enforce state law to protect all beneficial uses of Fall River and Pit River as shown in the Basin Plan.

Place this letter into the records and forward a written response.

Respectfully Submitted

Bob Baiocchi
California Fisheries and Water Unlimited
