Subject: 2017 Jan 18 State Water Resources Control Board

To Members of State Water Resources Control Board. Please read.

Thank you,

Anthony G. Davi, Sr.

831-594-3284

Dear Staff of the State Water Resources Control Board,

Please accept this letter as support of the Monterey Peninsula Water District letter dated January 3, 2017 related to Condition 2. As a residents and business owner on the Peninsula I have support the various plans to resolve this water problem along with the Peninsula, we have all demonstrated our commitment with continued reduction is water use. Verse those individual and or supposedly groups who have and continue to be opposed to just about every solution, regardless of the meniscal amount of water in question. It is absolutely clear that these individual and or group have no intention to replace the water being taken from the Carmel River, regardless of the numerous options that have been proposed during these past 35 years. Think of the millions of dollars that have been sucked out of the pocketbooks of the residence and businesses on the Peninsula, unnecessarily do to the continued opposition.

It's time to stop enabling these opponents to continue to find excuses, not to resolve the problem, so they can further their hiding agenda.

For this reason I ask that you support the Monterey Peninsula Water Management District allocation of water for individual properties be the recognized and allowed for these properties. This is a meniscal amount of water in questions verse the unduly burden placed upon individual commercial property owners who would face increased vacancies. Property use, should be left to the jurisdictions of the various cities

Thank you for considering and kindly recognize the burden if eliminating the ability of property owners and more importantly the community to enjoy properties being occupied and improved by rezoning and alternative uses verse an increased property vacancies, which is harmful to the community as a hole.

With regards,

Anthony G. Davi, SR

Business Owner/Resident
