Source: All Case Status data shown on Overall Case Status tables were exported from the GeoTracker Cleanup Sites Data Download on 1/14/2013 (available at: https://geotracker.waterboards.ca.gov/data_download.asp) and the GeoTracker Regulatory Activity Report for LUST Cleanup Sites on 1/14/2013. "Total Number of Cases" presented here does not include Military UST Sites, and so may not match the numbers presented in Tables 1 & 2. Additionally, LIAs with no non-Military UST Sites are not presented here.

[†] Potentially "Stuck" cases are cases that do not appear to be progressing towards case closure. For the purpose of this report, they are defined as either cases which have had a status of "Open—Site Assessment" for 10 years or longer (as of 1/14/2013), OR cases with no documented regulatory activity in GeoTracker for at least 2 years (as of 1/14/2013). The higher of the two values was used. As such, stuck cases are not a separate case status.

[‡] Data presented as "Cases Determined to Meet LTCP" (Low Threat Closure Policy) were exported from the GeoTracker Low Threat Closure Policy Summary Report on 1/14/2013, and are taken directly from the "Ready for Closure" column of that report on that date.

Source: Data for the Low Threat Closure Policy (LTCP) Summary table were exported from the GeoTracker Low Threat Closure Policy (LTCP) Summary Report on 1/14/2013. Values presented for "Total Number of LTCP Case Reviews" include all of the cases presented in the report (including "Cases Not Yet Reviewed"). The "Number of Cases Reviewed" is the sum of the "Ready for Closure" cases and the "LTCP Criteria Not Met" cases.

Figure 3: California Monthly Closures for CA FYs '09/'10 through '12/'13

Source: GeoTracker USEPA Regional Board Boundary Report 1/22/2013.

Notes:

- Net Closure Rate is calculated from the difference in the number of cases from the beginning to end of the performance period, and represents the difference in total case load during the period.
- Gross Closure Rate is calculated based on the total number of cases closed, versus the number of open cases at the start of the performance period.
- Historical closure rates were calculated from data captured from the GeoTracker Advanced Case Reporting Tool on 1/16/2013; thus they may not accurately reflect actual closure rates for the periods presented due to case transfers and backdated regulatory actions.

- 4. Case totals presented for Region 5S include the case "Test Site" which appears to be a test case that has not been flagged as such. The actual case total for this agency may be one less than presented here.
- 5. El Dorado County became an LOP effective 7/1/2008.
- 6. A case was opened during the performance period for Napa County (LIA), which is presented in the LIA case list based on GeoTracker exports.
- 7. Nevada County became an LOP effective 7/1/2008.
- 8. Three cases present in GeoTracker are assigned to Orange County (LIA), these are presented in the LIA case list based on GeoTracker exports.
- 9. Kern County ceased to be an LOP effective 7/1/2011, historical closure data for this LIA are not available due to cases being transferred to the Regional Board. The remaining cases assigned to this agency are Military UST Sites.
- 10. San Bernardino County ceased to be an LOP effective 7/1/2011. Historical closure data for this LIA are not available due to cases being transferred to the Regional Board.
- 11. Does not include DTSC, USEPA, Department of Public Health, or LIAs with no active cases. Yolo County had one open case on the start date of the performance period and did not have open cases at the end of the performance period; therefore, it is only included on Table 2. Additionally, Alameda County Water District is grouped with LIAs in GeoTracker reports; however, it is not a Certified Unified Program Agency.
- 12. Not all cases with a claim number have been assigned a priority class; and some cases have multiple claim numbers and multiple assigned priority classes. Each case with multiple priority classes was counted within the highest priority class assigned to it.
- 13. Number includes cases assigned to DTSC and may not match values presented in figures which exclude this agency.
- 14. The Average Age of Cases, in years, at time of closure for all LUST cases closed in the first half of CA FY 2012/2013.
