Subject: Stop the Water Grab

To Whom it may concern:

I know you have heard the cries of those who farm and make a living in the Central Valley and depend on water for our daily lives, today and in the future.

Please consider the all the consequences of water taken from this valley, the jobs lost and productive ground ruined, increased food prices and unemployment (that will only cost the state more money) You have heard that California is the "Bread basket of the world" and nothing could be more true.

If you claim to care for working people, the poor, farmers etc...you will keep the water flowing to the Central Valley. Not to do so would be a crime against the people of California and our land.
