## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 20245 (APPLICATION NO. A014858B)**

U.S. Bureau of Reclamation  
Mid-Pacific Region, MP 440  
2800 Cottage Way  
Sacramento, CA 95825-1898

Your Permit 20245 A014858B contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 20245 A014858B FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriate water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 13315 (APPLICATION NO. A022638)**

Ronald D. Conn, et al  
10655 N. Alpine Rd  
Stockton, CA 95212

Your License 13315 A022638 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13315 A022638 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 13835 (APPLICATION NO. A023810)**

Shasta Co. Dept. of Public Works  
CSA No. 23 - Crag View  
1855 Placer St.  
Redding, CA 96001-1759

Your License 13835 A023810 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 13835 A023810 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to

PO Box 591  
Marysville, CA 95901

Your License 11922 A025114 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 11922 A025114 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 11844 (APPLICATION NO. A025985)**

Mather AFRPA  
c/o Mike Swart  
3411 Olson St.  
McClellan, CA 95652-1003

Your License 11844 A025985 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 11844 A025985 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 12403 (APPLICATION NO. A026638)**

Bell'Acqua, Inc.  
181 Vista Creek Circle  
Sacramento, CA 95835

Your License 12403 A026638 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12403 A026638 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 19615 (APPLICATION NO. A027546)**

Lion Bros. Farms  
c/o Jeff A. Lion  
PO Box 1350  
Selma, CA 93662

Your Permit 19615 A027546 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19615 A027546 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 19856 (APPLICATION NO. A027893)**

Contra Costa Water District  
c/o Water Resources Manager  
PO Box H20  
Concord, CA 94524

Your Permit 19856 A027893 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19856 A027893 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

965 Bristol Ave  
Stockton, CA 95204

Your Permit 21040 A029550 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 21040 A029550 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriate water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 20281 (APPLICATION NO. A030358)**

Woodland-Davis Clean Water Agency  
1717 Fifth Street  
Davis, CA 95616

Your Permit 20281 A030358 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 20281 A030358 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriate water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriate water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 21101 (APPLICATION NO. A030838)**

Glenn-Colusa Irrigation District  
PO Box 150  
Willows, CA 95988

Your Permit 21101 A030838 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 21101 A030838 FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT (APPLICATION NO. \*IP - Notice Only\*)**

The following are sent copies of  
the Term 91 Notice  
AND Mailing List by  
Regular Mail:

Your \*IP - Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER \*IP - Notice Only\* FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 [crico@waterboards.ca.gov](mailto:crico@waterboards.ca.gov).

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT <<Interested Party>> (APPLICATION NO. \*IP-Notice Only\*)**

Don Glaser  
Mid-Pacific Region  
U.S. Bureau of Reclamation  
2800 Cottage Way, MP-100  
Sacramento, CA 95825-1898

Your <<Interested Party>> \*IP-Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> \*IP-Notice Only\* FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

## State Water Resources Control Board

October 24, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT <<Interested Party>> (APPLICATION NO. \*IP-Notice Only\*)**

Tracy Pettit  
Department of Water Resources  
3311 El Camino Avenue, Suite 300  
Sacramento, CA 95823

Your <<Interested Party>> \*IP-Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> \*IP-Notice Only\* FROM OCTOBER 30, 2013 THROUGH NOVEMBER 16th, 2013, UNLESS NOTIFIED EARLIER.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

**PLEASE NOTE: By no later than November 16, 2013 you must complete the enclosed Fall 2013 Term 91 Compliance Certification Statement and return it to our office certifying, under penalty of perjury, that you will either: (1) cease diversion from all water source; (2) cease diversion under the specified appropriative water right but will use water from your alternative source(s); or (3) continue diversion under the specified appropriative water right because of the lack of hydraulic continuity to the Delta downstream from your point of diversion.**

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water

FELICIA MARCUS, CHAIR | THOMAS HOWARD, EXECUTIVE OFFICER

1001 I Street, Sacramento, CA 95814 | Mailing Address: P.O. Box 100, Sacramento, Ca 95812-0100 | [www.waterboards.ca.gov](http://www.waterboards.ca.gov)

right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 [crico@waterboards.ca.gov](mailto:crico@waterboards.ca.gov).

Sincerely,

Craig M. Wilson
