State Water Resources Control Board

May 10, 2012

ADVANCE NOTICE – PROBABLE WATER DIVERSION CURTAILMENT DURING 2012

North San Joaquin Water
Conservation District
PO Box 428
Clements, CA 95227

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT Permit 10477 (APPLICATION NO. A012842)

Your Permit 10477 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under Permit 10477 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT Permit 16771 (APPLICATION NO. A023201)

Your Permit 16771 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under Permit 16771 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

Based on projected water and weather conditions, you may not be able to divert water under License 12478 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

ADVANCE NOTICE – PROBABLE WATER DIVERSION CURTAILMENT DURING 2012

Frank Rogers
Jim Rogers
PO Box 954
Colusa, CA 95932

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 12203 (APPLICATION NO. A024637)

Your License 12203 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under License 12203 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

ADVANCE NOTICE – PROBABLE WATER DIVERSION CURTAILMENT DURING 2012

Accornero & Sons Investments
c/o Giulio Accornero, Jr.
2918 NO. Blackstone Ave
Fresno, CA 93703

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 13436 (APPLICATION NO. A025999)

Your License 13436 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under License 13436 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

ADVANCE NOTICE – PROBABLE WATER DIVERSION CURTAILMENT DURING 2012

Senator Outing Duck Club, Inc
c/o Charles J. Oken
52 Peacock Dr
San Rafael, CA 94901

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 12517 (APPLICATION NO. A026931)

Your License 12517 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under License 12517 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT License 13034 (APPLICATION NO. A028539)

Your License 13034 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under License 13034 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

NOTICE OF PROBABLE CURTAILMENT OF WATER DIVERSION DURING 2012 (TERM 91) WATER RIGHT Permit 20798 (APPLICATION NO. A030359)

Your Permit 20798 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under Permit 20798 from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".

These conditions occur when stored water (supplemental Project water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The State Water Resources Control Board is giving this advance notice to advise affected diverters on the probability of a water diversion curtailment.

Based on projected water and weather conditions, you may not be able to divert water under <<Interested Party>> from the period of early June through August 31, 2012.

You will be sent a Notice of Curtailment of Water Diversion by certified mail when the water diversion curtailment period actually begins. If you plan to use water during the water diversion curtailment period, you must arrange to obtain an alternate source of water such as ground water or contract (purchased) water from agencies that have available water.

If you have any questions concerning this notice, please call Dustin La Vallee of the Delta Watermaster staff at (916) 445-5961.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig M. Wilson".
