

Appendix B - CEQA Checklist

THE PROJECT

1. PROJECT TITLE:

Implementation of State Water Recourses Control Board (State Water Board) Resolutions 2010-0057 and 2011-0013 ~~designating~~ State Water Quality Protection Areas ~~to Protect and~~ State Marine Protected Areas.

2. LEAD AGENCY NAME AND ADDRESS:

California Environmental Protection Agency
State Water Recourses Control Board – Division of Water Quality
1001 I Street Sacramento California 95814

3. CONTACT PERSON AND PHONE NUMBER:

Ms. Johanna Weston 916.327.8117/jweston@waterboards.ca.gov

4. PROJECT LOCATION:

Ocean waters of California

5. DESCRIPTION OF PROJECT:

The California Ocean Plan does not currently contain specific requirements for establishing State Water Quality Protection Areas that are not designated as Areas of Special Biological Significance nor does the California Ocean Plan contain requirements that address Marine Protected Areas. This proposed project attempts to resolve this issue through the amendment of the California Ocean Plan. The proposed amendments would :

- Establish a second category of State Water Quality Protection Areas that would be less restrictive than the provisions associated with existing State Water Quality Protection Areas– Areas of Special Biological Significance while providing a higher level of protection than the California Ocean Plan objectives and provision that apply to all ocean waters of the state. This new category would be identified as State Water Quality Protection Areas – General Protection
- Establish provisions for siting and designating State Water Quality Protection Areas – General Protection
- Establish provisions and prohibitions that protect water quality in State Water Quality Protection Areas – General Protection from certain types of existing and future point and nonpoint discharges while allowing some low threat discharges to continue without additional conditions

The proposed project would not affect existing California Ocean Plan prohibitions protecting Areas of Special Biological Significance, a unique class of State Water Quality Protection Areas. Nor would the proposed project establish new State Water Quality Protection Areas.

EVALUATION OF THE ENVIRONMENTAL IMPACTS IN THE CHECKLIST

1. The State Water Board must complete an environmental checklist prior to the adoption of plans or policies for the Basin/208 Planning program as certified by the Secretary for Natural Resources. The checklist becomes a part of the Substitute Environmental Documentation (SED).
2. For each environmental category in the checklist, the State Water Board must determine whether the project will cause any adverse impact. If there are potential impacts that are not included in the sample checklist, those impacts should be added to the checklist.

3. If the State Water Board determines that a particular adverse impact may occur as a result of the project, then the checklist boxes must indicate whether the impact is “Potentially Significant,” “Less than Significant with Mitigation Incorporated,” or “Less than Significant.”
 - a. “Potentially Significant Impact” applies if there is substantial evidence that an impact may be significant. If there are one or more “Potentially Significant Impact” entries on the checklist, the SED must include an examination of feasible alternatives and mitigation measures for each such impact, similar to the requirements for preparing an environmental impact report.
 - b. “Less than Significant with Mitigation Incorporated” applies if the State Water Board or another agency incorporates mitigation measures into the SED that will reduce an impact that is “Potentially Significant” to a “Less than Significant Impact.” If the State Water Board does not require the specific mitigation measures itself, then the State Water Board must be certain that the other agency will in fact incorporate those measures.
 - c. “Less than Significant” applies if the impact will not be significant, and mitigation is therefore not required.
 - d. If there will be no impact, check the box under “No Impact.”
4. The State Water Board must provide a brief explanation for each “Potentially Significant,” “Less than Significant with Mitigation Incorporated,” “Less than Significant,” or “No Impact” determination in the checklist. The explanation may be included in the written report described in section 3777(a)(1) or in the checklist itself. The explanation of each issue should identify: (a) the significance criteria or threshold, if any, used to evaluate each question; and (b) the specific mitigation measure(s) identified, if any, to reduce the impact to less than significant. The State Water Board may determine the significance of the impact by considering factual evidence, agency standards, or thresholds. If the “No Impact” box is checked, the board should briefly provide the basis for that answer. If there are types of impacts that are not listed in the checklist, those impacts should be added to the checklist.
5. The State Water Board must include mandatory findings of significance if required by CEQA Guidelines section 15065.
6. The State Water Board should provide references used to identify potential impacts, including a list of information sources and individuals contacted.
