

STATE WATER RESOURCES CONTROL BOARD
RESOLUTION NO. 75-105

REQUESTING THE ATTORNEY GENERAL OF THE STATE OF CALIFORNIA TO TAKE APPROPRIATE LEGAL ACTION REGARDING THE STRINGFELLOW CLASS I WASTE DISPOSAL SITE

WHEREAS:

1. The Stringfellow Quarry Company operated a Class I waste disposal site within the Santa Ana Region, County of Riverside.
2. On November 13, 1974, the Board of Supervisors of the County of Riverside cancelled the special use permit for operation of the aforementioned site.
3. On January 10, 1975, the California Regional Water Quality Control Board, Santa Ana Region (Regional Board), issued a cleanup and abatement order to the Stringfellow Quarry Company.
4. On February 14, 1975, the Regional Board conducted a hearing pursuant to Section 13305 of the California Water Code and, among other matters, requested the County of Riverside to abate conditions of pollution or nuisance at said site.
5. The aforementioned Class I waste disposal site previously operated by the Stringfellow Quarry Company is presently a nonoperating industrial or business location involving possible conditions of pollution or nuisance and threatened conditions of pollution or nuisance.
6. The County of Riverside has declined and refused to abate the aforementioned conditions of pollution or nuisance.
7. On September 12, 1975, the Regional Board adopted Resolution No. 75-233 wherein it requested the State Water Resources Control Board to enter into an agreement with Montgomery Engineering for engineering studies necessary for closure and proper maintenance of the Stringfellow site.

THEREFORE BE IT RESOLVED:

1. That the Executive Officer of the State Water Resources Control Board is hereby authorized and directed to refer this matter to the Attorney General of the State of California for the purpose of institution of any and all appropriate legal actions against any and all necessary persons, including, but not limited to, the Stringfellow Quarry

Company, the directors and officers thereof, and the County of Riverside, to cause abatement of any and all conditions of or threats of pollution or nuisance at the aforementioned site and to require proper closure of said site.

2. The State Water Resources Control Board Executive Officer is delegated the authority to enter into a contract with the appropriate person for necessary engineering studies, if, as a result of the action authorized in number 1 above, such contract is necessary and proper.
3. Funds may be disbursed from the State Water Resources Control Board cleanup and abatement account pursuant to State Board Resolution No. 75-14 for purposes of funding the engineering study and/or necessary and proper cleanup and abatement actions at the Stringfellow site.

CERTIFICATION

The undersigned, Executive Officer of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on **November 20, 1975.**
