

STATE WATER RESOURCES CONTROL BOARD  
RESOLUTION NO. 77-52

AUTHORIZING AUGMENTATION OF STANDARD AGREEMENT NO. W6-133-22 BETWEEN THE BOARD AND WATER RESOURCES ENGINEERS, INC. FOR EVALUATION OF ALTERNATE WATER QUALITY CONTROL STRATEGIES DEVELOPED UNDER THE BOARD HEARING ON THE SACRAMENTO-SAN JOAQUIN DELTA AND SUISUN MARSH

WHEREAS:

1. Necessary work on development of a modeling program and preparation of operational hydrodynamic and water quality models enumerated in the contract with Water Resources Engineers, Inc. concerning development and preparation of a working model of the Delta-Suisun Marsh system has been completed.
2. Additional work on calibration of the model for 1976 hydrologic conditions is necessary to yield a better understanding of the impacts of alternate water quality control strategies on required freshwater Delta outflow under sustained low-flow conditions.

THEREFORE BE IT RESOLVED:

That the Board's Executive Officer, or any person delegated by the Executive Officer, be authorized to augment Standard Agreement No. W6-133-22 between the Board and Water Resources Engineers, Inc. in an amount not to exceed \$15,000 for additional Delta modeling work through January 1, 1978.

CERTIFICATION

The undersigned, Executive Officer of the State Water Resources Control Board, does hereby certify that the foregoing is a full, true, and correct copy of a resolution duly and regularly adopted at a meeting of the State Water Resources Control Board held on June 16, 1977.
