CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD CENTRAL VALLEY REGION

ORDER R5-2014-0167

RESCINDING NPDES PERMITS AND WASTE DISCHARGE REQUIREMENTS

• CALIFORNIA PINES COMMUNITY SERVICES DISTRICT WASTEWATER TREATMENT SYSTEM, ALTURAS, MODOC COUNTY

Waste Discharge Requirements Order No. 94-047, adopted on 25 February 1994, prescribes requirements for the discharge from California Pines Community Services District, Modoc County (Facility). The Facility is comprised of seasonal use septic tank/leachfields and a wastewater collection system with lift stations and two treatment ponds. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 94-047.

• FALL RIVER MILLS COMMUNITY SERVICES DISTRICT WASTEWATER TREATMENT SYSTEM, FALL RIVER, SHASTA COUNTY

Waste Discharge Requirements Order No. 94-048, adopted on 25 February 1994, prescribes requirements for the discharge from Fall River Mills Community Services District, Shasta County (Facility). The Facility is comprised of a wastewater collection system with lift stations and six treatment ponds. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 94-048.

 FRESNO COUNTY WATERWORKS DISTRICT NO. 38, SKY HARBOUR WASTEWATER TREATMENT FACILITY, FRESNO COUNTY

Waste Discharge Requirements Order 90-088, adopted on 23 March 1990, prescribes requirements for the discharge from the Sky Harbour Wastewater Treatment Facility in Fresno County. Fresno County Waterworks District No. 38 applied for coverage under Water Quality Order 97-10-DWQ, and a Notice of Applicability was issued on 4 September 2014. Therefore, WDRs Order 90-088 is no longer necessary and should be rescinded. (LR)

 INTERMOUNTAIN CONSERVATION CAMP, WASTEWATER TREATMENT SYSTEM, BIEBER, LASSEN COUNTY

Waste Discharge Requirements Order No. 94-226, adopted on 4 August 1994, prescribes requirements for the discharge from Intermountain Conservation Camp (Facility). The Facility consists of a wastewater collection system and septic tanks discharging to leach fields. The Facility is now regulated under General

Order 97-10-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 20,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 94-226.

KRAMER QUARRY AND ASPHALT, LASSEN COUNTY

Waste Discharge Requirements Order No. 96-073, adopted by the Central Valley Regional Water Quality Control Board (Central Valley Water Board) on 22 March 1996 prescribes requirement for the discharge from Kramer Quarry & Asphalt (Facility). The Facility consists of a rock pit and grading operation. The Facility is not operational, with no intention of future operations in the manner described by the Waste Discharge Requirements Order No. 96-073. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 96-073.

• LEHIGH SOUTHWEST CEMENT COMPANY, LAKE BRITTON DIATOMACEOUS EARTH PIT, SHASTA COUNTY

Waste Discharge Requirements Order No. 93-172, adopted on 17 September 1993, prescribes requirements for the discharge from Lake Britton Diatomaceous Earth Pit, Shasta County (Facility). The Facility encompasses 14 acres including the quarry and a 3 acre feet storm water retention pond. On 27 June 2014, the Department of Conservation, Office of Mine Reclamation (OMR) received notice that the Facility has been reclaimed according to the approved reclamation plan. The County of Shasta is the Surface Mining and Reclamation Act (SMARA) lead agency for this surface mining. According to OMR, the lead agency has determined that Lake Britton Diatomaceous Earth Pit has been reclaimed in accordance with the approved reclamation plan and that there are no other outstanding reclamation liabilities. OMR has performed a site inspection on 10 June 2014, completed its review and concurs that reclamation substantially meets the requirements of the reclamation plan and there are no outstanding reclamation liabilities on the mined land. Therefore, it is appropriate to rescind Waste Discharge Requirements Order No. 93-172.

IT IS HEREBY ORDERED that the above NPDES Permit and Waste Discharge Requirement orders are rescinded.

I, PAMELA C. CREEDON, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region on December 5, 2014.

PAMELA C. CREEDON, Executive Officer
