

Water Finance Clearinghouse

Water Infrastructure and Resiliency Finance Center

Learn More — Register for One of the Webinars Below

EPA's Water Infrastructure and Resiliency Finance Center has developed a **Water Finance Clearinghouse** to help communities make informed decisions for their drinking water, wastewater, and stormwater infrastructure needs.

The beta site is ready for testing. Please join us to learn more about the key functions of the Clearinghouse, how to add/edit/delete content, and what the next steps are before public deployment!

Desired Webinar Audience: The beta site is not ready for public/utility consumption. Beta testing is for organizations and entities that manage water funding sources and/or routinely publish or produce water finance-specific resources.

All webinars will cover identical content. If you cannot make any of the following dates/times work, please contact Kristyn Abhold (abhold.kristyn@epa.gov) to schedule an alternative and/or private webinar.
